Proof of the 1-Factorization and Hamilton Decomposition Conjectures Béla Csaba, Daniela Kühn, Allan Lo, Deryk Osthus, Andrew Treglown, 2016-10-05 In this paper the authors prove the following results via a unified approach for all sufficiently large n

- i 1 factorization conjecture Suppose that n is even and $D \geq 4$ Then every D regular graph G on n vertices has a decomposition into perfect matchings
- Equivalently G is D Hamilton decomposition conjecture Suppose that $D \geq 2$ Then every D regular graph G on n vertices has a decomposition into Hamilton cycles and at most one perfect matching
- iii Optimal packings of Hamilton cycles Suppose that G is a graph on n vertices with minimum degree $n/2$ Then G contains at least $\text{regeven}(n/2)$ edge disjoint Hamilton cycles Here $\text{regeven}(n)$ denotes the degree of the largest even regular spanning subgraph one can guarantee in a graph on n vertices with minimum degree i was first explicitly stated by Chetwynd and Hilton ii and the special case $n/2$ of iii answer questions of Nash Williams from 1970 All of the above bounds are best possible

Sand, Snow, and Stardust Gretchen Heefner, 2025-05-05 A vivid tour of US military efforts to understand survive and command harsh environments worldwide and beyond Deserts the Arctic outer space these extreme environments are often seen as inhospitable places at the edges of our maps But from the 1940s through the 1960s spurred by the diverse and unfamiliar regions the US military had navigated during World War II the United States defense establishment took a keen interest in these places dispatching troops to the Aleutian Islands North Africa the South Pacific and beyond To preserve the country's status as a superpower after the war to pave runways and build bridges engineers had to understand and then conquer dunes permafrost and even the surface of the moon Sand Snow and Stardust explores how the US military generated a new understanding of these environments and attempted to master them intending to cement America's planetary power Operating in these regions depended as much on scientific and cultural knowledge as on military expertise and technology From General George S Patton learning the hard way that the desert is not always hot to the challenges of constructing a scientific research base under the Arctic ice to the sheer implausibility of modeling Martian environments on Earth Gretchen Heefner takes us on a wry expedition into the extremes and introduces us to the people who have shaped our insight into these extraordinary environments Even decades after the first manned space flight plans for human space exploration and extraplanetary colonization are still based on what we know about stark habitats on Earth An entertaining survey of the relationship between environmental history and military might Sand Snow and Stardust also serves as a warning about the further transformation of the planet whether through desertification melting ice caps or attempts to

escape it entirely **Who Are You Who Are So Wise in the Science of Teaching?** Rex R. Schultze J.D., 2021-02-10 Based upon years of reviewing the work product of building principal s evaluations of their teaching staff it has been evident to me there is a clear need to improve this critical aspect of school administration This book is designed to provide building principals and assistant principals with guidance on 1 the necessary preparation of the principal to be effective at guiding and coaching their staff 2 the laying of the foundation for their teachers to know the standard of performance expected by the school district as whole and the specific building where they serve guide and teach their students 3 the teaching of their instructional staff what constitutes good lesson planning and instruction as defined by the educational model adopted by the school and art of teaching under that model 4 developing the skills for the writing of effective teacher formative and summative evaluations to assist in the improvement of instruction and 5 the work required in 1 to 4 above to establish and qualify the principal as an expert witness under the Rules of Evidence if he she is called upon to participate in the end game of moving an underperforming teacher along The book is designed as a step by step process with reading assignments and self instruction tasks at the end of each chapter applying the concepts teaching supporting and assisting teachers in the science of teaching needed to develop maintain and excel at their craft It is shown scientifically that where teachers know the district s standards of performance student learning improves and students learn how to learn essential in today s ever changing society Being an effective building principal thus requires you to be an expert in your field i e that person who is rhetorically asked Who are you who are so wise in the science of teaching About the Author As you will surmise quickly in reading this book Rex Schultze has had the fortunate circumstance of being immersed in public education for his entire life from 1951 to the present as a teacher s and administrator s kid as a high school teacher for four years as the brother of an elementary school teacher and administrator and as a lawyer with a 40 year practice focused on public education both K 12 and community college levels As such he brings to you in Who are you who are so wise in the science of teaching a lifetime of perspective on the value of an education and particularly public education the most important equalizer of the citizens of our country and the need to grow support and nurture the best teachers possible Rex is a Boomer as in Baby Boomer OK Boomer an early version of that generation that grew up in the 50 s and 60 s so you will find references to the movies and music of those days throughout the book to add perspective and some fun Apologies in advance for the succeeding generations you can google the references a contribution by Rex to your personal history journey **Operator Methods in Wavelets, Tilings, and Frames** Keri A. Kornelson, Eric S. Weber, 2014-10-20 This volume contains the proceedings of the AMS Special Session on Harmonic Analysis of Frames Wavelets and Tilings held April 13 14 2013 in Boulder Colorado Frames were first introduced by Duffin and Schaeffer in 1952 in the context of nonharmonic Fourier series but have enjoyed widespread interest in recent years particularly as a unifying concept Indeed mathematicians with backgrounds as diverse as classical and modern harmonic analysis Banach space theory operator algebras and complex analysis have recently worked in frame

theory Frame theory appears in the context of wavelets spectra and tilings sampling theory and more The papers in this volume touch on a wide variety of topics including convex geometry direct integral decompositions Beurling density operator valued measures and splines These varied topics arise naturally in the study of frames in finite and infinite dimensions In nearly all of the papers techniques from operator theory serve as crucial tools to solving problems in frame theory This volume will be of interest not only to researchers in frame theory but also to those in approximation theory representation theory functional analysis and harmonic analysis

Making Sense of Math Cathy L. Seeley, 2016-04-05 In *Making Sense of Math* Cathy L Seeley former president of the National Council of Teachers of Mathematics shares her insight into how to turn your students into flexible mathematical thinkers and problem solvers This practical volume concentrates on the following areas Making sense of math by fostering habits of mind that help students analyze understand and adapt to problems when they encounter them Addressing the mathematical building blocks necessary to include in effective math instruction Turning teaching upside down by shifting how we teach focusing on discussion and analysis as much as we focus on correct answers Garnering support for the changes you want to make from colleagues and administrators Learn how to make math meaningful for your students and prepare them for a lifetime of mathematical fluency and problem solving
