Norton Nature Writing College Edition:

The Norton Book of Nature Writing Robert Finch, 2002-01-01 **Nature Writing** Robert Finch, John Elder, 2002 The first anthology to represent the full range of nature writing's rich and flourishing tradition from lyrical essays to thoughtful encounters with new ethical and ecological concerns **German-Language Nature Writing from Eighteenth Century to the Present** Gabriele Dürbeck, Christine Kanz, 2024-05-11 This volume examines the topic of German language nature writing in a broad historical context spanning more than two centuries. It brings together contributions on the debates of the category Nature Writing by numerous renowned international scholars. It discusses literary texts of natural history, nature exploration, nature poetry, perception and reflection by German speaking authors since the 18th century, including texts by Ulrike Draesner and on Esther Kinsky's writing. The book asks whether the here discussed texts can and should or may also be labeled as Nature Writing and how this new perspective on German literary history might change traditional classifications such as Naturlyrik, nature poetry in German literary history **The Oxford Handbook of Ecocriticism** Greg Garrard, 2014 The Oxford Handbook of Ecocriticism provides a broad survey of the longstanding relationship between literature and the environment. The moment for such an offering is opportune in many respects: multiple environmental crises are increasingly inescapable at both transnational and local levels; the role of the humanities in addition to technology and politics is increasingly recognized as central for exploring and finding solutions; and the subject of ecocriticism has reached a kind of critical mass both within its Anglo-American heartlands and beyond. From its origins in the study of American Nature Writing and British Romanticism, ecocriticism has developed along numerous theoretical, historical, cultural, and geographical axes, the most contemporary and exciting of which will be represented in the Handbook. The contributors include eminent founders of the field, including Cheryll Glotfelty and Jonathan Bate, a number of key second-wave ecocritics, and the best up-and-coming scholars. Topics covered include Green Shakespeare, the Bard's subversive uses of the pastoral, John Clare's sacred relationship with the land, Thoreau's profound political passion, the natural landscape as symbol of postcolonial resistance in works by Lessing Naipaul and Coetzee, the relation between feminism and environmentalism, language and the concept of biosemiotics, and concerns over pollution and toxicity in films like Erin Brockovich. Michael Clayton and Al Gore's *An Inconvenient Truth* **Henry David Thoreau** Michael Berger, 2025-08-01 Thoreau is well known as a lyrical nature writer, environmental prophet, rebel against stifling convention, and theorist of strategic intervention to protest injustice. He was also a part-time surveyor and pencil maker, student of Native America, abolitionist, philosopher, and shrewd Transcendentalist. Whether living at Walden Pond or comfortably on Main Street in central Concord, Thoreau made deep inquiries into life and gave all to his craft. Drawing on the work of outstanding scholars and critics, this companion provides information on the full body of Thoreau's work, his life, and his world, connecting the factors that affected Thoreau's thought and writing and highlighting his impact in his own time and since. This study brings these various aspects of Thoreau's life and writings into focus in over one hundred
