Not By Chance Shattering The Modern Theory Of Evolution:

Not by Chance! Lee M. Spetner, 1997 The author criticizes neo Darwinism and suggests replacing it with the nonrandom evolutionary hypothesis NREH p 209 **Three Days Before the Sun** Warren LeRoi Johns, 2014-11-06 Three Days Before the Sun explores our origin purpose and destiny in an eternity of time and an infinity of space The holes and flaws acknowledged by Darwin in his evolution theory are precisely targeted with academic precision in a format designed for the general public The scrupulously documented title dismantles the chance hypothesis point by point as a lawyer presents evidence to a jury The 296 page illustrated title comes salted with homey colloquialisms methodically exposing unproven assumptions But more than an expos of flawed conjecture masquerading as science Three Days Before the Sun offers a generic Christian glimpse of the raging origins controversy The book compliments the faith of Christian communities who believe the Genesis account of the creation miracle while asserting the Creator of the universe is the Author of science

Evolution Impossible John F. Ashton, John Ashton, 2012 There is scientific evidence proving evolution cannot be responsible for life on Earth In Evolution Impossible Dr John Ashton uses discoveries in genetics biochemistry geology radiometric dating and other scientific disciplines to explain why the theory of evolution is a myth Regardless of your level of scientific education you will finish this book able to cite 12 reasons why evolution cannot explain the origin of life

Gnosticism Through the Prism of the Third Millennium Alexander Maistrovoy, 2018-04-27 In the epoch of the late antiquity Gnostic schools gave their own exhaustive answers for the eternal questions of humankind Who are we Where did we come from and why do we exist What gives rise to endless and inescapable evil and suffering Jorge Borges describes the Gnostic view of life that we are a careless or criminal blunder the fruit of engagement of the flawed deity and crude material Thus the Gnostic answers to these questions were radically different from those espoused by traditional religions of the time Gnosticism through the Prism of the Third Millennium explores this Gnostic view of life and how they viewed a material world as a distortion of celestial spheres and how in humanity they saw a being doomed to suffering yet carrying inside the spark of the supreme divine world Author Alexander Maistrovoy offers a history of Gnosticism and its confrontation with the church showing how despite the crash of Gnostic schools its teachings and its questions did not disappear Today we can make sense of Gnostic philosophy not through the prism of mysticism or mythology but from the point of view of rationalism scientific knowledge and historical experience And what we will discover is that Gnostic thought has meaning and relevancy today shedding light on fundamental questions about the universe ourselves and the divine *The Scientific Case Against Scientific Creationism* Jon P. Alston, 2003-09 Sociologist Jon P Alston offers a unique and clear analysis of the weaknesses of scientific creationism and intelligent design by identifying what creationists say when they reject evidence for evolution He demonstrates how scientific creationists accept non scientific statements that contradict established scientific knowledge Acceptance of anti evolutionary knowledge also demands acceptance of a literal six day creation and other statements

contradicting scientific findings Few persons have read so closely the writings of scientific creationists to illustrate how anti scientific anti evolutionists become when they criticize the fact of evolution Creationists are forced to develop just so stories to defend their literal interpretations of Biblical scripture Alston finds creationists cannot defend their religious beliefs using established scientific methodologies and principles

Persuaded by the Evidence Jerry Bergman,Doug Sharp,2008 A unique and interesting collection of true stories from Christians each sharing his personal journey to find the biblical truth of a six day creation From scientists in the midst of complex research to youth ministers and more see how each began at a different point and place in his life to question the supposed truth of evolution and how faith and actual evidence led to his embracing a creation based biblical world view In their testimonies you will read about their search for answers often unavailable through their school their church or scientific knowledge and how the discoveries they made have shaped their faith and changed their lives Seeking answers for yourself Discover the powerful truths these individuals now share and find yourself also persuaded by the evidence Contributors include Carl Kerby Curt Sewell Dr Robert A Herrmann Dr Walter T Brown Dr Raymond Damadian Frank Sherwin and more

The Twelve Pillars of Unbelief Douglas Olsen,2023-02-22 *The Twelve Pillars of Unbelief* Why the Arguments for Atheism Don t Work and Why the Ones for Christianity Do By Douglas Olsen About the Book This book summarizes the reasons atheism is logically faulty from a Christian perspective The author incorporates his own examples insights and humor According to the author we are living in an increasingly secular society and there have been best selling books by the so called New Atheists which need to be put in their place with a fresh approach to the beliefs of Christianity This book is different from other books attacking atheism in the inclusion of a chapter on heaven and hell with an nontraditional but Biblical view of hell and a section on evolution Intelligent Design and creationism I hope the reader who is more likely to be Christian rather than atheist will be armed with arguments against atheism as well as thoughtful ideas about Christianity Maybe some agnostics or seekers will find truth in it

The Mystery of Life What'S It All About? David E. Peebles,2018-03-15 Have you ever seriously considered the most difficult and puzzling questions presented to our minds during this mortal sojourn through an often difficult and challenging existence Who am I Where did I come from Why am I here Where am I going And perhaps the most important question of all What is my purpose for living In this ultra modern digital world of today many people have become so preoccupied with the daily

pursuits of life and the addictive overuse of time consuming technology that many of them rarely pause to seriously consider what life is actually all about In writing The Mystery of Life it has been my hope and my goal to personally challenge each reader to consider many relevant facts and to follow a line of evidence pointing toward a worldview that is often overlooked and too easily marginalized We live in an aggressive technology driven world where the wild pursuit of power prestige possession and pleasure has become the driving influence ruling over many of our lives What does your worldview look like Is there enough evidence to support it beyond reasonable doubt If not then I invite you to consider a vast body of mounting evidence that could lead toward a more accurate discernment of an often confusing existence The view of life that we have each come to know will strongly influence everything we do say and become in this world Based on a remarkable consensus of evidence perhaps we should consider a worldview understanding that will ultimately avail our hearts and minds of the personal fulfillment and satisfaction we have always longed for and often dreamed of We owe it to ourselves to seriously consider where the evidence is leading us Isnt it about time to discover the answers to our most persistent and pressing questions The Mystery of Life is presented as a literary expose addressing the questions of origin meaning morality and destiny
