Royal Commission on the Metropolitan Police, 1908 *Not Your Mother's Vampire* Deborah Wilson Overstreet, 2006-08-15
Examining young adult vampire fiction and how it fits in both the contemporary and classic vampire canon, the book's analysis begins with a primer on vampire scholarship, including a brief deconstruction of ten seminal vampire representations: five literary, five cinematic, and their impact on young adult vampire novels. The evolution of vampires from scary Gothic enemies into postmodern sexualized heroes is traced throughout the book, and the influence of Anne Rice's *Vampire Chronicles*. Subsequent chapters examine current young adult vampire novels from such popular horror authors as Amelia Atwater Rhodes, Christopher Pike, R. L. Stine, Darren Shan, and L. J. Smith, and are divided into three categories based on narrative structure: the process of turning into a vampire, humans and vampires trying to find their way in life and romantic relationships with a vampire partner. Analysis also addresses vampire conventions, the traditions that exist in each vampire universe, vampires and sexuality, and good and reluctant vampires. The human characters who coexist with vampires in these novels receive the same treatment. Additionally, issues of gender, age, and affectional orientation of human and vampire characters are discussed, as are postmodern constructions of good and evil. *Not Your Mother's Vampire* contains an exploration of *Buffy the Vampire Slayer*, a television phenomenon which has sparked an entirely new academic field. *Buffy*

Studies The vampire characters on Buffy and parallel series Angel are explored as are a few main humans slayers and witches alike The final chapter of the book is an annotated bibliography of seminal vampire scholarship As the only in depth examination of young adult vampire novels in existence this book is essential for students and scholars of the literature
