

Note Taking Guide Episode 604 Name

“There’s greater diversity going on than efforts to create a common ground for things, should the effort be on the ground at all,” he said. “That’s why it’s a great idea to have a common ground for things to do, but it’s not a common ground for things to do.”

My focus being that rather practitioners, not customers will provide a solution. Usually, we are given a document that says "the client wants a solution" or "the client is looking for a solution" and we are supposed to find a solution. But the client is not looking for a solution, they are looking for a way to solve a problem. So, we need to understand the problem and then we can find a solution. The client is not looking for a solution, they are looking for a way to solve a problem. So, we need to understand the problem and then we can find a solution.
