How to Pool Risks Across Generations Michael Otsuka, 2023-05-28
How to Pool Risks across Generations makes the case for the collective provision of pensions on fair terms of social cooperation. Through the insurance of a mutual association which extends across society and over multiple generations we share one another's fates by pooling risks across both space and time. Resources are transferred not simply between different people but also within the possible future lives of each person from one's more fortunate to one's less fortunate future selves. The book opens with an investigation of the longevity and investment risk that even a single individual on a desert island would face in providing for her old age. From this atomistic starting point it builds up within and across the chapters to increasingly collective forms of pension provision. By joining together it is possible to tame the risks we would face as individuals each with our own private pension pot. A collective pension can be justified as a social union of social unions, an enduring corporate body which is formed by agreements to pool risks in a manner that involves reciprocity between the various individuals that constitute the collective. Even though all individuals age and die a collective pension scheme remains evergreen as the average age of members remains relatively unchanged through the influx of new members to replace those who retire. It is therefore possible to smooth risks indefinitely across as well as within generations to the mutual advantage of each. **The Pedagogy of Watching Shakespeare** Bethan Marshall, Myfanwy Edwards, Charlotte Dixie, 2024-05-31
The pedagogy of acting out Shakespeare has been extensive. Less work has been done on how students learn through spectatorship. This element will consider all within the current context of Shakespeare teaching in schools. Using grounded research it will include work undertaken on a school's National Theatre production of Macbeth as well as classroom based action research using a variety of digital performances of Shakespeare plays. Both find means of extending student knowledge in unexpected ways through encountering interpretations of Shakespeare that the students had not considered. In reflecting on the practice of watching Shakespeare in an educational context both at the theatre and in the classroom this Element hopes to offer suggestions for how teachers might re-think the ways in which they present Shakespeare performed to their students particularly as a powerful way of building personal and critical responses to the plays. **Taking the Lead** Mark Lax, 2020-03-01
As Australia withdrew from Vietnam in 1972 few in the Australian Defence Force, none the least those in the Royal Australian Air Force could foresee the immense change that would sweep across the Service. New and emerging

international relationships changing Australian social attitudes and a growing sense of defence self reliance would all impact how the RAAF contributed to the application of air power in the defence of the nation and in supporting Australia's wider national interests For the first time *Taking the Lead* brings to the reader a comprehensive and authoritative study of how the RAAF matured over its third quarter century how it met the challenges faced and how it finally came of age able to take the lead when asked By 1996 plans were in place such that the RAAF was well on the way to becoming the world's first fifth generation air force by making a remarkable transition This volume also dispels the myth that the RAAF did little in the latter part of the twentieth century but in fact the RAAF was at the forefront of operations as wide afield as the Sub Continent the Middle East Africa and South East Asia Then there was aid to the civil community as well as aid to those nations seeking help in wider Asia Pacific region Clever force restructuring for expeditionary operations amid the stress of downsizing by almost a third meant that future operations in the twenty first century were to be a success *Taking the Lead* is not just about aircraft bases and flying It considers the strategic environment of the era the factors that affected personnel and training how the RAAF's force structure advanced and how the RAAF managed its successes and failures For those seeking to learn more about their air force then this book is essential reading *Taking the Lead* covers this vital part of the RAAF's unfolding narrative and perfectly illustrates how the RAAF remained true to its motto *Per Ardua ad Astra* Through Adversity to the Stars

Wireless Traffic Steering For Green Cellular Networks Shan Zhang, Ning Zhang, Sheng Zhou, Zhisheng Niu, Xuemin (Sherman) Shen, 2016-06-01 This book introduces wireless traffic steering as a paradigm to realize green communication in multi tier heterogeneous cellular networks By matching network resources and dynamic mobile traffic demand traffic steering helps to reduce on grid power consumption with on demand services provided This book reviews existing solutions from the perspectives of energy consumption reduction and renewable energy harvesting Specifically it explains how traffic steering can improve energy efficiency through intelligent traffic resource matching Several promising traffic steering approaches for dynamic network planning and renewable energy demand supply balancing are discussed This book presents an energy aware traffic steering method for networks with energy harvesting which optimizes the traffic allocated to each cell based on the renewable energy status Renewable energy demand supply balancing is a key factor in energy dynamics aimed at enhancing renewable energy sustainability to reduce on grid energy consumption Dynamic network planning adjusts cell density with traffic variations to provide on demand service which reduces network power consumption with quality of service provisioning during off peak hours With intra or inter tier traffic steering cell density is dynamically optimized with regards to the instant traffic load for conventional homogeneous and multi tier heterogeneous cellular networks respectively This book is beneficial for researchers and graduate students interested in traffic management and future wireless networking

Mobile Edge Caching in Heterogeneous Vehicular Networks

Huaqing Wu,Feng Lyu,Xuemin Shen,2021-12-02 To support smart vehicular services especially in the future driverless era the vehicular networks are expected to support high bandwidth content delivery and reliable accessibility of multifarious applications However the limited radio spectrum resources the inflexibility in accommodating dynamic traffic demands and the geographically constrained fixed infrastructure deployment of current terrestrial networks pose great challenges in ensuring ubiquitous flexible and reliable network connectivity This book investigates mobile edge content caching and delivery in heterogeneous vehicular networks HetVNNets to provide better service quality for vehicular users with resource utilization efficiency enhancement Specifically this book introduces the background of HetVNNets and mobile edge caching provides a comprehensive overview of mobile edge caching assisted HetVNNet techniques in supporting vehicular content delivery and proposes designs mobile edge content caching and delivery schemes in different HetVNNet scenarios respectively to enhance vehicular content delivery performance Afterward this book outlines open issues and research directions in future mobile edge caching assisted space air ground integrated vehicular networks The topics addressed in this book are crucial for both the academic community and industry since mobile edge caching in heterogeneous networks has become an essential building block for the communication systems The systematic principle of this book provides valuable insights on the efficient exploitation of heterogeneous network resources to fully unleash their differential merits in supporting vehicular applications In addition this book considers different HetVNNet scenarios from terrestrial HetVNNets to air ground HetVNNets and space air ground HetVNNets which can provide a general overview for interested readers with a comprehensive understanding of applying mobile edge caching techniques in enhancing vehicular content delivery performance and offer a systematized view for researchers and practitioners in the field of mobile edge caching to help them design and optimize the desired vehicular content delivery systems Provides in depth studies on mobile edge content caching and delivery scheme design for three typical HetVNNet scenarios Comprehensively covers the analysis design and optimization of the mobile edge

content caching assisted HetVNetS Systematically addresses vehicle mobility network service interruptions and dynamic service request distribution issues in the mobile edge content caching and delivery Law's Impunity Hin-Yan Liu,2015-09-24 When faced with those who act with impunity we seek the protection of law We rely upon the legal system for justice from international human rights law that establishes common standards of protection to international criminal law that spearheads efforts to end impunity for the most heinous atrocities While legal processes are perceived to combat impunity and despite the ready availability of the law accountability often remains elusive What if the law itself enables impunity Law s Impunity asks this question in the context of the modern Private Military Company PMC examining the relationship between law and the concepts of responsibility and impunity This book proposes that ordinary legal processes do not neutralise but rather legalise impunity This radical idea is applied to the abysmal record of human rights violations perpetrated by the modern PMC and the shocking absence of accountability This book demonstrates how the law organises rather than overcomes impunity by detailing how the modern PMC exploits ordinary legal processes to systematically exclude itself from legal responsibility Thus Law s Impunity offers an alternative to conventional thinking about the law providing an innovative approach to assess and refine the rigour of legal processes in the ongoing quest to end impunity **Cognitive Resource Management for Heterogeneous Cellular Networks** Yongkang Liu,Xuemin (Sherman) Shen,2014-05-07 This Springer Brief focuses on cognitive resource management in heterogeneous cellular networks Het Net with small cell deployment for the LTE Advanced system It introduces the Het Net features presents practical approaches using cognitive radio technology in accommodating small cell data relay and optimizing resource allocation and examines the effectiveness of resource management among small cells given limited coordination bandwidth and wireless channel uncertainty The authors introduce different network characteristics of small cell investigate the mesh of small cell access points in parallel with macrocells in network control and resource management and address resource management in the backhaul with coordination constraints and wireless channel uncertainty The final section of this brief summarizes and provides future research directions for this topic including a proposed framework that has been evaluated through realistic simulations Cognitive Resource Management for Heterogeneous Cellular Networks is designed for researchers and professionals working in wireless communications and networks Advanced level students studying electrical and computer engineering should also find the content helpful *Chronic Myeloid Leukemia* Rüdiger Hehlmann,2016-08-17 This book provides state of the art reviews of key issues and recent developments relating to chronic myeloid leukemia CML acquainting the reader with advances in research treatment and promotion of public health Among the management topics addressed are the choices advantages and pitfalls of first second and third line treatments the European LeukemiaNet recommendations management of adverse effects of tyrosine kinase inhibitors TKI management of CML blast crisis management of pregnancy in the context of CML the role of hematopoietic cell transplantation the current experience with TKI discontinuation and the value of

interferon in improving the outcome of TKI treatment Various aspects of relevance to treatment outcome are discussed including prognostic scores molecular monitoring principles and interlaboratory standardization and response related predictors of survival Furthermore updates are provided on the increasing prevalence of CML and its implications and on the changing cost of care for CML taking into account the forthcoming impact of availability of generic imatinib
