Christians Shaping Identity from the Roman Empire to Byzantium Geoffrey Dunn, Wendy Mayer, 2015-07-14 The essays collected in Christians Shaping Identity celebrate Pauline Allen's significant contribution to early Christian late antique and Byzantine studies especially concerning bishops heresy orthodoxy and

christology Covering the period from earliest Christianity to middle Byzantium the first eighteen essays explore the varied ways in which Christians constructed their own identity and that of the society around them A final four essays explore the same theme within Roman Catholicism and oriental Christianity in the late 19th to 21st centuries with particular attention to the subtle relationships between the shaping of the early Christian past and the moulding of Christian identity today Among the many leading scholars represented are Averil Cameron and Elizabeth A Clark *Marital Privilege* Serena

Mayeri, 2015-07-08 How the privileged legal status of marriage survived decades of constitutional struggle and social change The United States is unusual among wealthy western nations in the degree to which the law channels public benefits and private economic resources through marriage This remains so despite seismic changes in American family life in the last several decades of the twentieth century During this period marriage rates declined while divorce and nonmarital childbearing soared Social movements for racial and economic justice women s and gay rights and liberation civil liberties and reproductive freedom transformed the legal landscape In *Marital Privilege* Serena Mayeri tells the stories of parents and partners and activists and lawyers who challenged the legal primacy of marriage They made innovative constitutional claims in courts and launched grassroots efforts to change laws and practices that penalized nonmarital relationships But even though reforms eliminated the most visible discrimination against women people of color and children born to unmarried parents and eventually against gay and lesbian Americans marriage s privileged status endured Because marriage increasingly correlated with education and wealth marital primacy intensified racial and economic inequality *Marital Privilege* explains how as American law selectively incorporated principles of liberty and equality the benefits of marriage became increasingly unavailable to those who needed them most **Social Media and Education** Neil Selwyn, Eve

Stirling, 2019-09-19 Social media are now established as an important aspect of contemporary education We live in times where social media applications such as Facebook Twitter Tumblr and Snapchat are mainstream educational tools where most new educational technologies claim to have a social element and it increasingly makes no sense to distinguish between learning online and offline It studies users experiences and views of social media addresses questions of equality and diversity concerning who is doing what with social media examines how the use of social media applications sits alongside pre existing cultures and structures of schooling and brings to light the unintended and unexpected results of social media in education Altogether this collection of writing provides a nuanced and interesting discussion of the realities of social media use across different aspects of education This book was originally published as a special issue of *Learning Media and Technology* [Cellular Structures—Advances in Research and Application: 2013 Edition](#), 2013-06-21 *Cellular Structures Advances in Research and Application 2013 Edition* is a ScholarlyEditions book that delivers timely authoritative and comprehensive information about Intracellular Space The editors have built *Cellular Structures Advances in Research and Application 2013 Edition* on the vast information databases of ScholarlyNews You can expect the information about

Against Individualism Henry Rosemont Jr.,2015-03-25 The first part of Against Individualism A Confucian Rethinking of the Foundations of Morality Politics Family and Religion is devoted to showing how and why the vision of human beings as free independent and autonomous individuals is and always was a mirage that has served liberatory functions in the past but has now become pernicious for even thinking clearly about much less achieving social and economic justice maintaining democracy or addressing the manifold environmental and other problems facing the world today In the second and larger part of the book Rosemont proffers a different vision of being human gleaned from the texts of classical Confucianism namely that we are first and foremost interrelated and thus interdependent persons whose uniqueness lies in the multiplicity of roles we each live throughout our lives This leads to an ethics based on those mutual roles in sharp contrast to individualist moralities but which nevertheless reflect the facts of our everyday lives very well The book concludes by exploring briefly a number of implications of this vision for thinking differently about politics family life justice and the development of a human centered authentic religiousness This book will be of value to all students and scholars of philosophy political theory and Religious Chinese and Family Studies as well as everyone interested in the intersection of morality with their everyday and public lives
