Quest for Love in Central Morocco Laura Menin, 2024-04-15 Following the 2011 wave of revolutions and protests in North Africa and the Middle East new discussions of individual freedoms emerged in the Moroccan public sphere and human rights discourse A segment of the public rallied around the removal of an article in the penal code that punished sexual relationships outside of marriage As debates about personal and sexual freedom gain momentum love and intimacy remain complex issues Moving between public clandestine and online interactions Quest for Love in Central Morocco explores the creative ways young women navigate desire and morality Menin's ethnography focuses on young women living in the low income and lower middle class neighborhoods of a mid-sized town in Central Morocco far from the overt influence of city life At the heart of the book Menin draws upon ideas of love as an ethnographic object and source of theoretical examination She demonstrates that love as a complex cultural and historical phenomenon shaped through intersecting socioeconomic and political developments is crucial in thinking through generational changes and debates in Morocco and the Middle East more broadly What is at stake in the quest for love she argues is not only the making of gendered selves and intimate relationships but also the imagination of social and political life **Public Reason and Courts** Silje A. Knowledge Obioma Nnaemeka, 2005-07-30 Heated debates about and insurgencies against female circumcision are symptoms of a disease emanating from a mindset that produced hierarchies of humans conquered colonies and built empires

The loss of colonies and empires does not in any way mitigate the ideological underpinnings of empire building and the knowledge construction that subtends it. The mindset finds its articulation at points of coalescence. Female circumcision provided a point of coalescence and impetus for this articulation. Insisting that the hierarchy on which the imperialist project rests is not bipolar but multi-layered and more complex, the contributors in this volume demonstrate how imperialist discourses complicate issues of gender, race, and history. Nnaemeka gives voice to the silenced and marginalized and creates space for them to participate in knowledge construction and theory making. The authors in this volume trace the travels of imperial and colonial discourses from antecedents in anthropology, travel writings, and missionary discourse to modern configurations in films, literature, and popular culture. The contributors interrogate foreign or Western *modus operandi* and interventions in the so-called Third World and show how the resistance they generate can impede development work and undermine the true collaboration and partnership necessary to promote a transnational feminist agenda. With great clarity and in simple, accessible language, the contributors present complex ideas and arguments which hold significant implications for transnational feminism and development. **The Middle East and South Asia 2018-2019** Seth Cantey, 2018-10-26

This annually updated volume of the World Today Series is designed to place in context the passionate controversies and emotional attachments of the two billion people who live, study, work, and die in the Middle East and South Asia. Despite room for optimism in some areas, many parts of the Middle East and South Asia continue to face extraordinary challenges and difficult outlooks. Much of this has to do with conflict across the region which extends well beyond atrocities perpetrated by the Islamic State and the Assad regime in Syria. This volume depicts a region where hundreds of millions seek dignity as humans and respect from their governments. This volume helps the general reader understand recent and past developments from these countries. *Human Rights in the Near East and North Africa* James T. Lawrence, 2004

The existence of human rights helps secure the peace, deter aggression, promote the rule of law, combat crime and corruption, and prevent humanitarian crises. These human rights include freedom from torture, freedom of expression, press freedom, women's rights, children's rights, and the protection of minorities. This book surveys the countries of the Near East and North Africa and is augmented by a current bibliography and useful indexes by subject, title, and author. *Egypt and the Politics of Change in the Arab Middle East* Robert Bowker, 2010-01-01

The situation unfolding in Egypt and elsewhere in the Arab Middle East has important implications for the future of the Arab political order. For the first time, a secular but inclusive political alternative to Islamism has emerged. It has captured the political imagination of the emerging Arab middle class. It will shape the regional security environment. Its consequences are unpredictable, but the greatest risk to the region is the marginalization and alienation of a movement that has raised and galvanized its political horizons. Robert Bowker. In his book *Egypt and the Politics of Change in the Arab Middle East*, Professor Robert Bowker argues that if regimes fail to address effectively the demands for empowerment of its educated youth, they face the prospect of a tsunami-like current of instability and regression.

Ambassador Bowker's new book achieves the challenging objective of making a contribution to scholarship on Egypt and the Arab world while being accessible to a general audience. He addresses the key drivers of change such as globalization and Islamicization and the entrenched attitudes, behavior, and institutions they confront. Drawing upon an impressive array of empirical information, case studies, and first-hand observations, he both illustrates and assesses the contending forces and the likely outcomes of their confrontations. Robert Springborg, Naval Postgraduate School, Monterey, US. This book is certain to be a valued and respected addition to the literature on the eve of a potentially transformational moment in Egyptian history and thus possibly for the Arab world as well. Jerrold D. Green, Pacific Council on International Policy, Los Angeles, US. In this illuminating and informed book, Robert Bowker tackles the prospects for change in the contemporary Arab world. He persuasively argues that while long-term demographic, educational, and social transformations pose formidable challenges for the future, the important issues of political reform, Islamism, and regional security are contestable. The message that this book so engagingly conveys is that change is both inevitable and not necessarily to be feared. It is a refreshingly constructive and timely reminder for all who would see the new Middle East as destined to be volatile and precarious. James Piscatori, Durham University, UK. Dr. Bowker's study provides the best encapsulation and explanation of changes in the Arab world's social and economic landscape in an age of faster and deeper interdependence. Measured and sober in its analysis and challenging in its conclusions, it should be read by all those who want to have a better understanding of the Middle East in general and Egypt in particular. Amin Saikal, The Australian National University. Egypt and the Politics of Change in the Arab Middle East is a forward-looking analysis of the relationship between economic and political reform in Egypt and of the evolving nature of Arab society and political culture both in Egypt and elsewhere. Writing from the perspective of a recently retired ambassador with extensive Arab regional experience, Robert Bowker discusses the potential impact of systemic resistance to pressures for greater transparency, accountability, and political reform amid ongoing demographic, educational, and generational changes. His analysis encompasses the military and security services, the influence of the shadow state, and the impact of social surveillance, coercion, and corruption. Looking ahead, he discusses emerging business models, returning Arab expatriates, the gradual empowerment of women, and the impact of Islam. He considers the political sustainability of economic reform, including the challenges facing marginalized groups. His analysis concludes by reviewing the regional security and political context of reform, the importance of political leadership over the coming decade, and the role of external parties. Compelling, insightful, and thought-provoking, the book provides **Avenues of Participation**. Diane Singerman, 2020-09-01. Intentionally excluded from formal politics in authoritarian states, do the common people have concrete ways of achieving community objectives? Contrary to conventional wisdom, this book demonstrates that they do. Focusing on the political life of the shah or popular classes in Cairo, Diane Singerman shows how men and women develop creative and effective strategies to accomplish shared goals despite the dominant forces ranged against them. Starting at the household

level in one densely populated neighborhood of Cairo Singerman examines communal patterns of allocation distribution and decision making Combining the institutional focus of political science with the sensitivities of anthropology she uncovers a system of informal networks supported by an informal economy that constitutes another layer of collective institutions within Egypt and allows excluded groups to pursue their interests Avenues of Participation traces this informal system from its grounding in the family to its influence on the larger polity Discussing the role of these networks in meeting fundamental needs in the community such as earning a living reproducing the family saving and investing money and coping with the bureaucracy Singerman demonstrates the surprising power these excluded people wield While the government has reduced politics to the realm of distribution to protect itself from challenges she argues that the popular classes in Cairo as consumers of goods and services have turned exploiting the government into a fine art
