Sexing the World Anthony Corbeill, 2015-01-18 From the moment a child in ancient Rome began to speak Latin the surrounding world became populated with objects possessing grammatical gender masculine eyes oculi feminine trees arbores neuter bodies corpora *Sexing the World* surveys the many ways in which grammatical gender enabled Latin speakers to organize aspects of their society into sexual categories and how this identification of grammatical gender with biological sex affected Roman perceptions of Latin poetry divine power and the human hermaphrodite Beginning with the ancient grammarians Anthony Corbeill examines how these scholars used the gender of nouns to identify the sex of the object being signified regardless of whether that object was animate or inanimate This informed the Roman poets who for a time changed at whim the grammatical gender for words as seemingly lifeless as dust pulvis or tree bark cortex Corbeill then applies the idea of fluid grammatical gender to the basic tenets of Roman religion and state politics He looks at how the ancients tended to construct Rome's earliest divinities as related male and female pairs a tendency that waned in later periods An analogous change characterized the dual sexed hermaphrodite whose sacred and political significance declined as the republican government became an autocracy Throughout Corbeill shows that the fluid boundaries of sex and gender became increasingly fixed into opposing and exclusive categories *Sexing the World* contributes to our understanding of the power of language to shape human perception

Trans and Genderqueer Subjects in Medieval Hagiography Alicia Spencer-Hall, Blake Gutt, 2025-10-01 Trans and Genderqueer Subjects in Medieval Hagiography presents an interdisciplinary examination of trans and genderqueer subjects in medieval hagiography Scholarship has productively combined analysis of medieval literary texts with modern queer theory yet too often questions of gender are explored almost exclusively through a prism of sexuality rather than gender identity This volume moves beyond such limitations foregrounding the richness of hagiography as a genre integrally resistant to limiting binaristic categories including rigid gender binaries The collection

showcases scholarship by emerging trans and genderqueer authors as well as the work of established researchers Working at the vanguard of historical trans studies these scholars demonstrate the vital and vitally political nature of their work as medievalists Trans and Genderqueer Subjects in Medieval Hagiography enables the re creation of a lineage linking modern trans and genderqueer individuals to their medieval ancestors providing models of queer identity where much scholarship has insisted there were none and re establishing the place of non normative gender in history **The Great Dictionary**

Hannah Bacon,2016-02-11 The doctrine of the Trinity poses a series of problems for feminist theology At a basic level the androcentric nature of trinitarian language serves to promote the male as more fully in the image of God and as the archetype of humanity pushing women to the margins of personhood It is no surprise then that feminist scholarship on this doctrine has often focused on what s wrong with the Trinity setting out the problems raised by the use of traditional androcentric trinitarian language This book brings together a discussion of feminist theological methodology with a critical exploration of the doctrine of the Trinity Focussing on what s right with the Trinity as opposed to what s wrong with the Trinity it considers the usefulness of this doctrine for feminist theology today It replaces a stress on trinitarian language with an emphasis on trinitarian thought exploring how we might effectively think rather than speak God in light of feminist

concerns In particular it asks how a trinitarian understanding of God might support and be supported by key values which underpin a feminist way of doing theology specifically values which underpin the methodological use of women s experience in feminist theology The central argument is that thinking God as Trinity need not serve to reinforce patriarchal values and ideals but may in fact promote the subjectivity and personhood of women **Language, Gender, and Society** Barrie Thorne,Cheris Kramarae,Nancy Henley,1983 **The Great Dictionary English - French** Benjamin Maximilian Eisenhauer, This dictionary contains around 130 000 English terms with their French translations making it one of the most comprehensive books of its kind It offers a wide vocabulary from all areas as well as numerous idioms The terms are translated from English to French If you need translations from French to English then the companion volume The Great Dictionary French English is recommended *Sexing La Mode* Jennifer Jones,2004-07 Jones examines men s and women s relation to fashion in eighteenth century France and shows how shopping and fashion developed as specifically feminine associations *Polishing the Chinese Mirror* Marthe Chandler,Ronnie Littlejohn,2008 This anthology contains articles honoring Rosemont s work and provide a venue for a rigorous scholarly analysis of his varied contributions to the field
