Shakespeare and the Cultural Colonization of Ireland Robin Bates, 2008-01-11 Using a combined lens of cultural materialist and postcolonial studies to read the early modern inclusion of the Irish in the culture of the British empire this study explores the cultural colonization or impressment as a way of understanding for Shakespeare's representations of the Irish

Shakespeare and Contemporary Irish Literature Nicholas Taylor-Collins, Stanley van der Ziel, 2018-09-18 This book shows that Shakespeare continues to influence contemporary Irish literature through postcolonial dramaturgical epistemological and narratological means International critics examine a range of contemporary writers including Eavan Boland Marina Carr Brian Friel Seamus Heaney John McGahern Frank McGuinness Derek Mahon and Paul Muldoon and explore Shakespeare's tragedies histories and comedies as well as his sonnets Together the chapters demonstrate that Shakespeare continues to exert a pressure on Irish writing into the twenty first century sometimes because of and sometimes in spite of the fact that his writing is inextricably tied to the Elizabethan and Jacobean colonization of Ireland Contemporary Irish writers appropriate adopt adapt and strategize through their engagements with Shakespeare and indeed through his own engagement with the world around him four hundred years ago

The Celtic Revival in Shakespeare's Wake A. Putz, 2013-05-14 This book reconsiders the Celtic Revival by examining appropriations of Shakespeare using close readings of works by Arnold Dowden Yeats and Joyce to reveal the pernicious manner in which the discourse of Anglo Irish cultural politics informed the critical paradigms that mediated the reading of Shakespeare in Ireland for a generation

Celtic Shakespeare Rory Loughnane, 2016-04-08 Drawing together some of the leading academics in the field of Shakespeare studies this volume examines the commonalities and differences in addressing a notionally Celtic Shakespeare Celtic contexts have been established for many of Shakespeare's plays and there has been interest too in the ways in which Irish Scottish and Welsh critics editors and translators have reimagined Shakespeare claiming connecting with and correcting him This collection fills a major gap in literary criticism by bringing together the best scholarship on the individual nations of Ireland Scotland and Wales in a way that emphasizes cultural crossovers and crucibles of conflict The volume is divided into three

chronologically ordered sections Tudor Reflections Stuart Revisions and Celtic Afterlives This division of essays directs attention to Shakespeare's transformed treatment of national identity in plays written respectively in the reigns of Elizabeth and James but also takes account of later regional receptions and the cultural impact of the playwright's dramatic works The first two sections contain fresh readings of a number of the individual plays and pay particular attention to the ways in which Shakespeare attends to contemporary understandings of national identity in the light of recent history Juxtaposing this material with subsequent critical receptions of Shakespeare's works from Milton to Shaw this volume addresses a significant critical lacuna in Shakespearean criticism Rather than reading these plays from a solitary national perspective the essays in this volume cohere in a wide ranging treatment of Shakespeare's direct and oblique references to the archipelago and the problematic issue of national identity

Indography J. Harris, 2012-05-07 In the fifteenth and sixteenth centuries Europeans invented Indians and populated the world with them The global history of the term Indian remains largely unwritten and this volume taking its cue from Shakespeare asks us to consider the proximities and distances between various early modern discourses of the Indian Through new analysis of English travel writing medical treatises literature and drama contributors seek not just to recover unexpected counter histories but to put pressure on the ways in which we understand race foreign bodies and identity in a globalizing age that has still not shed deeply ingrained imperialist habits of marking difference

The Tower of London in English Renaissance Drama Kristen Deiter, 2011-02-23 The Tower of London in English Renaissance Drama historicizes the Tower of London's evolving meanings in English culture alongside its representations in twenty four English history plays 1579 c 1634 by William Shakespeare Christopher Marlowe and others While Elizabeth I James I and Charles I fashioned the Tower as a showplace of royal authority magnificence and entertainment many playwrights of the time revealed the Tower's instability as a royal symbol and represented it instead as an emblem of opposition to the crown and as a bodily and spiritual icon of non royal English identity

Victorian Narrative Technologies in the Middle East Cara Murray, 2008-06-15 Using narrative theory and postcolonial theory this study reveals the cultural changes that turned England from a nation that abstained from investing in

the internationally conceived Suez Canal to an imperial power who by 1875 owned it Arguing that literary genre was itself a technology that spread imperialism Murray shows how roads canals and novels colonized the Middle East *Hamlet and Emotions* Paul Megna, Bríd Phillips, R.S. White, 2019-02-01 This volume bears potent testimony not only to the dense complexity of Hamlet's emotional dynamics but also to the enduring fascination that audiences, adaptors and academics have with what may well be Shakespeare's moodiest play Its chapters explore emotion in Hamlet as well as the myriad emotions surrounding Hamlet's debts to the medieval past its relationship to the cultural milieu in which it was produced its celebrated performance history and its profound impact beyond the early modern era Its component chapters are not unified by a single methodological approach Some deal with a single emotion in Hamlet while others analyse the emotional trajectory of a single character and still others focus on a given emotional expression e.g. sighing or crying Some bring modern methodologies for studying emotion to bear on Hamlet others explore how Hamlet anticipates modern discourses on emotion and still others ask how Hamlet itself can complicate and contribute to our current understanding of emotion **The Genesis of the Chicago Renaissance** Mary Hricko, 2013-09-05 This study examines the genesis of Chicago's two identified literary renaissance periods 1890-1920 and 1930-1950 through the writings of Dreiser Hughes Wright and Farrell The relationship of these four writers demonstrates a continuity of thought between the two renaissance periods By noting the affinities of these writers patterns such as the rise of the city novel the development of urban realism and the shift to modernism are identified as significant connections between the two periods Although Dreiser Wright and Farrell are more commonly thought of as Chicago writers this study argues that Langston Hughes is a transitional pivotal figure between the two periods Through close readings and contextualization the influence of Chicago writing on American literature in such areas as realism and naturalism as well as proletarian and ethnic fiction becomes apparent Ruined by Design Inger Sigrun Brodey, 2013-01-11 By examining the motif of ruination in a variety of late eighteenth century domains this book portrays the moral aesthetic of the culture of sensibility in Europe particularly its negotiation of the demands of tradition and pragmatism alongside utopian longings for authenticity natural goodness self governance mutual transparency and instantaneous kinship This book argues that the rhetoric of ruins lends a distinctive shape to the architecture and literature of the time and requires the novel to adjust notions of authorship and narrative to accommodate the prevailing aesthetic Just as architects of eighteenth century follies pretend to have discovered authentic ruins novelists within the culture of sensibility also build purposely fragmented texts and disguise their authorship invoking highly artificial means of simulating nature The cultural pursuit of human ruin however leads to hypocritical and sadistic extremes that put an end to the characteristic ambivalence of sensibility and its unusual structures Modernism and the Marketplace Alissa G. Karl, 2013-01-11 Though the relationship of modernist writers and artists to mass marketplaces and popular cultural forms is often understood as one of ambivalence if not antagonism Modernism and the Marketplace redirects this established line of

inquiry considering the practical and conceptual interfaces between literary practice and dominant economic institutions and ideas

Misery's Mathematics Peter Balaam, 2009-01-19 This book reveals the strain of a moment in American cultural history that led several remarkable writers Emerson Warner and Melville to render loss in innovative ways These three key writers rejected Calvinist and sentimental models of bereavement creating instead the compensations of a mature American literature

Modern American Counter Writing A. Robert Lee, 2010-01-21 The dissident voice in US culture might almost be said to have been born with the territory Its span runs from Roger Williams to Thoreau Anne Bradstreet to Gertrude Stein Ambrose Bierce to the New Journalism The Beats to the recent Bad Subjects cyber crowd This new study analyses three recent literary tranches in the tradition a re envisioning of the whole Beat web or circuit a consortium of postwar outrider voices Hunter Thompson to Frank Chin Joan Didion to Kathy Acker and a latest purview of what all too casually has been designated ethnic writing The aim is to set up and explore these different counter seams of modern American writing those which sit outside or at least awkwardly within agreed literary canons

The Politics of Identity in Irish Drama George Cusack, 2009 [Ethics and Politics in Modern American Poetry](#) John Wrighton, 2012-06-25 From the Objectivists to e poetry this thoughtful and innovative book explores the dynamic relationship between the ethical imperative and poetic practice revitalizing the study of the most prominent post war American poets in a fresh provocative way Contributing to the turn to ethics in literary studies the book begins with Emmanuel Levinas philosophy proposing that his reorientation of ontology and ethics demands a social responsibility In poetic practice this responsibility for the other it is argued is both responsive to the traumatized semiotics of our shared language and directed towards an emancipatory social activism Individual chapters deal with Charles Olson s The Maximus Poems including reproductions of previously unpublished archive material Gary Snyder s environmental poetry Allen Ginsberg s Beat poetics Jerome Rothenberg s ethnopoetics and Bruce Andrew s Language poetry Following the book s chronological and contextual approach their work is situated within a constellation of poetic schools and movements and in relation to the shifting socio political conditions of post war America In its redefinition and extension of the key notion of poethics and as guide to the development of experimental work in modern American poetry this book will interest and appeal to a wide audience
