

Pentecost

**Better a jungle in the head
than rootless concrete.
Better to stand bewildered
by the fireflies' crooked street;**

**winter lamps do not show
where the sidewalk is lost,
nor can these tongues of snow
speak for the Holy Ghost;**

**the self-increasing silence
of words dropped from a roof
points along iron railings,
direction, in not proof.**

**But best is this night surf
with slow scriptures of sand,
that sends, not quite a seraph,
but a late cormorant,**

**whose fading cry propels
through phosphorescent shoal
what, in my childhood gospels,
used to be called the Soul.**

The Shapes of Early English Poetry Eric Weiskott, Irina Dumitrescu, 2019-04-01 This volume contributes to the study of early English poetics In these essays several related approaches and fields of study radiate outward from poetics including stylistics literary history word studies gender studies metrics and textual criticism By combining and redirecting these traditional scholarly methods as well as exploring newer ones such as object oriented ontology and sound studies these essays demonstrate how poetry responds to its intellectual literary and material contexts The contributors propose to connect the small syllables words and phrases to the large histories emotions faiths secrets In doing so they attempt to work magic on the texts they consider turning an ordinary word into something strange and new or demonstrating texture difference and horizontality where previous eyes had perceived only smoothness sameness and verticality

The Arts and the Bible Stanley E. Porter, Wendy J. Porter, 2024-01-04 Throughout its history the Christian church has had a troubled relationship with the arts whether literature poetry music visual arts or other forms of artistic expression This volume is not designed to resolve the issues but it is designed to present a number of different statements about various dimensions of the arts in their relationship to the Bible The Bible is the document that stands behind the Christian church as an inspiration to it and to its arts As a result we have divided this volume into six parts perspectives on the arts culture and art visual enactments contemporary interpretations music and the Bible and literature Many of the issues that the history of the interaction of the arts and the Bible within the Christian church has uncovered are

T. S. Eliot's Dialectical Imagination Jewel Spears Brooker, 2018-11-15 What principles connect and what distinctions separate The Love Song of J Alfred Prufrock The Waste Land and Four Quartets The thought tormented characters in T S Eliot's early poetry are paralyzed by the gap between mind and body thought and action The need to address this impasse is part of what drew Eliot to philosophy and the failure of philosophy to appease his disquiet is the reason he gave for abandoning it In T S Eliot's Dialectical Imagination Jewel Spears Brooker argues that two of the principles that Eliot absorbed as a PhD student at Harvard and Oxford were to become permanent features of his mind grounding his lifelong quest for wholeness and underpinning most of his subsequent poetry The first principle is that contradictions are best understood dialectically by moving to perspectives that both include and transcend them The second is that all truths exist in relation to other truths Together or in tandem these two principles dialectic and relativism constitute the basis of a continual reshaping of Eliot's imagination The dialectic serves as a kinetic principle undergirding his impulse to move forward by looping back and the relativism supports his ingrained ambivalence Brooker considers Eliot's poetry in three blocks each represented by a signature masterpiece The Love Song of J Alfred Prufrock The Waste Land and Four Quartets She correlates these works with stages in the poet's intellectual and spiritual life disjunction ambivalence and transcendence Using a methodology that is both inductive moving from texts to theories and comparative juxtaposing the evolution of Eliot's mind as reflected in his philosophical prose and the evolution of style as seen in his poetry Brooker integrates cultural and biographical contexts The first book to read Eliot's poems alongside all of his prose and letters T S Eliot's Dialectical Imagination will revise received readings of his mind and art as well as of literary modernism

The Space That Remains Aaron Peltari, 2014-09-08 In The Space That Remains Aaron Peltari offers the first systematic study of the major fourth century poets since Michael Robert's foundational The Jeweled Style It is the first book to give equal attention to both Christian and Pagan poetry and the first to take seriously the issue of readership As Peltari shows the period marked a turn towards forms of writing that privilege the reader's active involvement in shaping the meaning of the text In the poetry of Ausonius Claudian and Prudentius we can see the increasing importance of distinctions between old and new ancient and modern forgotten and remembered The strange traditionalism and verbalism of the day often concealed a desire for immediacy and presence We can see these changes most clearly in the expectations placed upon readers The space that remains is the space that the reader comes to inhabit as would increasingly become the case in the literature of the Latin Middle Ages

Karl Barth and Pentecostal Theology Frank D. Macchia, Terry L. Cross, Andrew K. Gabriel, 2024-02-08 The essays in this volume evaluate and build on Barth's theology from the perspective of Pentecostal theology and thereby contribute to constructive Pentecostal systematic theology by using Barth as a valuable dialogue partner At present a theological conversation of Pentecostals with Barth does not exist and this volume fills this void More

widely it will aid all those who seek a convergence of the Word and the Spirit in theology Barth and Pentecostals share some important common theological interests Barth's mature theology has a decidedly christological emphasis Likewise historically Pentecostals have often spoken of a full gospel with an emphasis on Christ as savior healer baptizer in the Spirit and soon and coming King with some Pentecostal traditions also adding a fifth emphasis on Christ the sanctifier Furthermore near the end of his life Barth anticipated the possibility of a theology of the third article a theology where the Holy Spirit would dominate and be decisive The realization of Barth's dream is no doubt coming to pass in part through the development of Pentecostal theology in as much as pneumatological theology exploring how pneumatology affects supplements and might reform other doctrines is an emerging paradigm for Pentecostal theology
