successful efforts of grassroots organization No Games Chicago to derail Chicago's bid for the 2016 Summer Olympics in an entertaining case study of local activism with international reach. The group's detailed strategies and tactics provide a much needed playbook for scholars, journalists, and activists seeking people-powered alternatives to megaprojects and other tourism-centric economic development schemes. In a time when vital public services are being cut and curtailed, public spaces diminished, and civil liberties threatened by the over-policing of protests, America continues to dedicate billions of public dollars to private development and sports facilities. The activists of No Games Chicago broke new ground in their fight to represent the voice of the people among established local political powers in the decision-making process for Chicago's Olympic bid. Their story resonates both nationally and globally; over 15 cities around the world have said "No Thank You to the Olympics" since the success of No Games Chicago. Relevant to students and chroniclers of deliberative democracy, public policy, media for social change, community organizing, and the economics of sport, No Games Chicago is an enjoyable practical addition to the literature of citizen governance, urban planning, and economic development. *Unruly Media* Carol
