Note Taking Guide Kennedy And The Cold War:

New East-bloc Evidence on the Cold War in the Third World and the Collapse of Détente in the 1970s, 1996 The Bloomsbury Handbook to Cold War Literary Cultures Greg Barnhisel, 2022-06-30 Adopting a unique historical approach to its subject and with a particular focus on the institutions involved in the creation dissemination and reception of literature this handbook surveys the way in which the Cold War shaped literature and literary production and how literature affected the course of the Cold War To do so in addition to more traditional sources it uses institutions like MFA programs university literature departments book review sections of newspapers publishing houses non governmental cultural agencies libraries and literary magazines as a way to understand works of the period differently Broad in both their geographical range and the range of writers they cover the book s essays examine works of mainstream American literary fiction from writers such as Roth Updike and Faulkner as well as moving beyond the U S and the U K to detail how writers and readers from countries including but not limited to Taiwan Japan Uganda South Africa India Cuba the USSR and the Czech Republic engaged with and contributed to Anglo American literary texts and institutions *World History* Elisabeth Gaynor Ellis, Anthony Esler, 2014 **Arc of Containment** Wen-Qing Ngoei, 2019-05-15 Arc of Containment recasts the history of American empire in Southeast and East Asia from World War II through the end of American intervention in Vietnam Setting aside the classic story of anxiety about falling dominoes Wen Qing Ngoei articulates a new regional history premised on strong security and sure containment guaranteed by Anglo American cooperation Ngoei argues that anticommunist nationalism in Southeast Asia intersected with preexisting local antipathy toward China and the Chinese diaspora to usher the region from European dominated colonialism to US hegemony Central to this revisionary strategic assessment is the place of British power and the effects of direct neocolonial military might and less overt cultural influences based on decades of colonial rule as well as the considerable influence of Southeast Asian actors upon Anglo American imperial strategy throughout the post war period Arc of Containment demonstrates that American failure in Vietnam had less long term consequences than widely believed because British pro West nationalism had been firmly entrenched twenty plus years earlier In effect Ngoei argues the Cold War in Southeast Asia was but one violent chapter in the continuous history of western imperialism in the region in the twentieth century **Perceptions of China and White House Decision-Making, 1941-1963** Adam S.R. Bartley, 2019-11-26 This book assesses and evaluates the decision making behavior of United States presidents and their chief advisers from Roosevelt to Kennedy pertaining to China Seeking to dispel with the notion that each administration sought policy outcomes on the basis of a rational decision making model Bartley highlights the contradictions of adopted presidential decision making processes and the nature of domestic politics as playing prejudicial and debilitating roles The book demonstrates that elite decision making processes interacted with assumptions made about Chinese behavior interests and attitudes only superficially and in some cases not at all Misinformation and misperception were the natural outcomes

Reinforced by the politics of McCarthyism at home intellectual debate on China policy was squashed parochialism and nuance were shunned and information was closed off Ultimately a divorce between the norm of behavior and the search for rational policy was registered in each administration The net result was a lasting and destructive cognitive dissonance to fit expectations of a China reality constructed information was ignored overlooked and distorted Offering new insights into the China policies of consecutive administrations from 1941 to 1963 this volume will be of great interest to scholars and students of American foreign policy security studies and international relations [The War Council](#) Andrew Preston,2006-05-30 Was the Vietnam War unavoidable Historians have long assumed that ideological views and the momentum of events made American intervention inevitable By examining the role of McGeorge Bundy and the National Security Council Andrew Preston demonstrates that policymakers escalated the conflict in Vietnam in the face of internal opposition external pressures and a continually failing strategy Bundy created the position of National Security Adviser as we know it today with momentous consequences that continue to shape American foreign policy Both today's presidential supremacy in foreign policy and the contemporary national security bureaucracy find their origins in Bundy's powers as the first National Security Adviser and in the ways in which he and his staff brought about American intervention in Vietnam Presidents Kennedy and Johnson were not enthusiastic about waging a difficult war in pursuit of murky aims but the NSC's bureaucratic dexterity and persuasive influence in the Oval Office skewed the debate in favor of the conflict In challenging the prevailing view of Bundy as a loyal but quietly doubting warrior Preston also revises our understanding of what it meant and means to be a hawk or a dove The War Council is an illuminating and compelling story with two inseparable themes the acquisition and consolidation of power and how that power is exercised **Anti-Communism and Popular Culture in Mid-Century America** Cyndy Hendershot,2015-10-03 Not long after the Allied victories in Europe and Japan America's attention turned from world war to cold war The perceived threat of communism had a definite and significant impact on all levels of American popular culture from government propaganda films like Red Nightmare in Time magazine to Adventures of Rocky and Bullwinkle This work examines representations of anti communist sentiment in American popular culture from the early fifties through the mid sixties The discussion covers television programs films novels journalism maps memoirs and other works that presented anti communist ideology to millions of Americans and influenced their thinking about these controversial issues It also points out the different strands of anti communist rhetoric such as liberal and countersubversive ones that dominated popular culture in different media and tells a much more complicated story about producers and consumers ideas about communism through close study of the cultural artifacts of the Cold War Instructors considering this book for use in a course may request an examination copy here **Khrushchev's Cold War: The Inside Story of an American Adversary** Aleksandr Fursenko,Timothy Naftali,2007-09-25 Nikita Khrushchev was a leader who risked war to get peace during the most dangerous years of the twentieth century In Khrushchev's Cold War Aleksandr Fursenko and Timothy Naftali authors of the
