If more than one APS-6R is necessary to satisfy Audible/Visual (DC) power requirements, connect additional APS-6R power supplies together as described in the Installation Instruction Manual. When used with the AFP-200, the APS-6R mounts in the lower portion of the cabinet where batteries would normally mount (BB-17 required). When used with the System 500, only one APS-6R may be mounted in the right-most position in the cabinet.

Underwriters Laboratories requires that all Signaling Appliances be approved for use with the selected control system due to voltage operating range criteria. Use only those appliances listed for use with the associated control system. Refer to Device Compatibility Document #15378.
