

The Geography Oasis

Population

Density and Distribution

Activate

Study the two images and describe the differences. (climate, economic activities and services, relief, accessibility)

1. Climate
2. Economic activities
3. Services
4. Relief
5. Accessibility

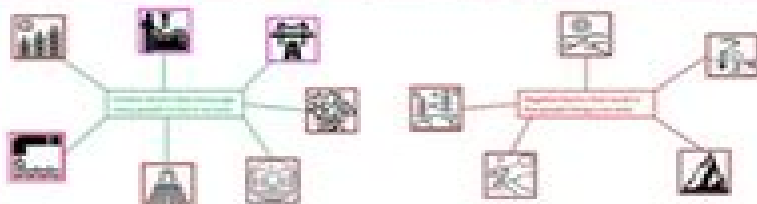

Extension: Compare these pictures to your own home area. Is it different? Why?

PRESENTATION

Factors influencing where people live

Activities: Look at the information below and the world map. How is population density different in different parts of the world? What are the physical factors influencing where people live?

Factors:

Extension: Look at a world map and identify the factors influencing where people live.

WORKSHEET

Global Population Distribution

Look at the world map and identify the areas of high and low population density. What are the physical factors influencing where people live?

Population Density

- The world's population is evenly distributed across the globe.
- The majority of the world's population lives in the eastern half of the world.
- The majority of the world's population lives in the eastern half of the world.
- The majority of the world's population lives in the eastern half of the world.
- The majority of the world's population lives in the eastern half of the world.

Population Density and Distribution

Some areas of the world are densely populated (concentrated with many people). Some areas are sparsely populated (scattered with few people).

Factors influencing where people live:

Physical factors: climate, land use, water, topography, and resources. Human factors: infrastructure, social factors, and economic activities.
