The answers to all questions are explained along with appropriate and supportive references. Features: Detailed charts and summary tables that facilitate conceptual learning; Concise coverage of pediatric, adult, and geriatric issues and conditions; Emphasis on critical teaching points relevant to current neuropsychological practice; Mock exam questions with answers and references at the end of every chapter relevant to the content; Four separate 125-question full-length mock exams with answers and references.

Cerebral Herniation Syndromes and Intracranial Hypertension Matthew Koenig, 2016-08-22 When the brain suffers an injury the effects can be delayed and unpredictable Cerebrospinal fluid can slowly build up causing dangerously high levels of intracranial pressure ICP and the brain tissue can be displaced into adjacent compartments resulting in cerebral herniation syndrome CHS Within the burgeoning field of neurocritical care experts are just beginning to understand the nuanced sometimes counterintuitive relationship between ICP and CHS Written by leading researchers who also have extensive first hand clinical experience treating brain injury patients Cerebral Herniation Syndromes and Intracranial Hypertension provides an up to date guide to this complex aspect of neurocritical care Drawing from expertise gained working in high volume medical centers the book s contributors reveal that there is no universal metric for gauging

acceptable levels of intracranial pressure. Instead, they demonstrate the best practices for offering patients individualized care based on their specific conditions and manifest symptoms. Bringing together internationally renowned neurocritical care experts from a variety of neurology, critical care surgery, and neurosurgery disciplines, this volume takes a comprehensive look at a complicated issue. A concise, practical, and timely review of Cerebral Herniation Syndromes and Intracranial Hypertension offers vital information for all medical personnel concerned with improving neurocritical patient care.
