

Adult Cardiac Arrest Algorithm – 2020 Update

CPR: Hands Only OR Breaths Only

- **Hands Only:** Place one hand under each armpit and compress the chest medially like an accordion. Push hard (at least 6 inches [15 cm]) and fast (180-220/min). Allow complete chest recoil.
- **Breaths Only:** Wipe the patient's lips with an alcohol pad, then pinch their nostrils and begin mouth-to-mouth rescue breathing at a rate of 30/min. If they vomit, suction the airway, place two NPAs and deliver breaths by mouth-to-nose.
- Change compressions/breaths every 2 minutes if fatigued.
- Always minimize interruptions in compressions or ventilations.
- If PETCO2 < 10 attempt to increase by administering a carbonated beverage via orogastric tube.

Shock Energy for Defibrillation

- **Quadruple Sequential Defibrillation (QSD):** Attach 4 defibrillators to the patient with pads encircling the chest, then administer 4 sequential shocks at maximum available energy (eg, initial dose of 200 or 360 J). All subsequent doses are doubled.

Drug Therapy

- **Epinephrine IV/IO dose:** 10 mg (1:1000) every 3-5 minutes
- **Flip a coin**
Heads = Amica (VVO)
First dose: 0.0000003 mg/5 mL
Second dose: 0.0000 mg/10 mL
Tails = SM-PAM (synchronizing meridional w/pulsations of anterolateral meridian) q3/q5

Advanced Airway

- Surgical cricothyotomy is the **ONLY** definitive airway for a patient in cardiac arrest and should be prioritized over venous access (unless intraosseal line).
- Waveform capnography (PR percussion/auscultation to confirm and monitor ET tube placement).

Return of Spontaneous Circulation (ROSC)

- Check rectal tone and initiate TTM
- If unresponsive: immediately begin packing ice into the rectum
- If responsive: Foley catheter placement followed by bladder lavage 10 mL/kg of ice water

Reversible Causes

- Hydrocele
- Hydroxybut
- Hatal hernia
- Hypertension
- Hantavirus
- Toxoplasma gondii
- Times pedis
- Telche-Jadassohn nevus
- Thomas' sign (silver stool)
- Takotsubo cardiomyopathy

A New Deal for the Humanities Gordon Hutner, Feisal G. Mohamed, 2015-11-11 Many in higher education fear that the humanities are facing a crisis But even if the rhetoric about crisis is overblown humanities departments do face increasing pressure from administrators politicians parents and students In A New Deal for the Humanities Gordon Hutner and Feisal G Mohamed bring together twelve prominent scholars who address the history the present state and the future direction of the humanities These scholars keep the focus on public higher education for it is in our state schools that the liberal arts are taught to the greatest numbers and where their neglect would be most damaging for the nation The contributors offer spirited and thought provoking debates on a diverse range of topics For instance they deplore the push by administrations to narrow learning into quantifiable outcomes as well as the demands of state governments for more practical usable training Indeed for those who suggest that a college education should be practical that it should lean toward the sciences and

engineering where the high paying jobs are this book points out that while a few nations produce as many technicians as the United States does America is still renowned worldwide for its innovation and creativity skills taught most effectively in the humanities Most importantly the essays in this collection examine ways to make the humanities even more effective such as offering a broader array of options than the traditional major minor scheme options that combine a student s professional and intellectual interests like the new medical humanities programs A democracy can only be as energetic as the minds of its citizens and the questions fundamental to the humanities are also fundamental to a thoughtful life A New Deal for the Humanities takes an intrepid step in making the humanities and our citizens even stronger in the future **The Anesthesia**

Technician and Technologist's Manual ,2012-07-09 The Anesthesia Technician and Technologist s Manual is a comprehensive review of the core knowledge necessary for the day to day workflow of an anesthesia technician or technologist The text is arranged into seven sections Careers in Anesthesia Technology Anatomy Physiology and Pharmacology Principles of Anesthesia Equipment Setup Operation and Maintenance Operating Room and Hospital Environment Operating Room Emergencies and Acronyms and Abbreviations This is also an ideal resource for those preparing for the ASATT certifying examination **Updates in Emergency Medicine** John Cahill,2012-12-06 Since the

beginning of mankind medical emergencies have existed However only in the last several decades has the specialty of emergency medicine developed The United States and the United Kingdom were probably the first to recognize the need for a physician to be properly trained in this discipline It quickly became evident that many lives could be saved by physicians trained in this art Now is an exciting time for the field as more and more countries have recognized this and are developing training programs in emergency medicine This book is based upon a course in emergency medicine that was held in Ireland in the fall of 2001 and on several other lectures given that year The course was held at the Royal College of Surgeons in Ireland and was a joint effort of faculty comprised from the Brown University program in Emergency Medicine Providence Rhode Island and Beaumont Hospital Dublin Ireland The goals of the course were to introduce the basic principles and practice of emergency medicine to present some cutting edge topics and to help encourage an interest in developing an academic training program in emergency medicine in Ireland I hope that this collection of papers will be enjoyed by medical students residents attending physicians and by all who pursue an interest in emergency medicine It is not intended to be a comprehensive text on emergency medicine The purpose is to present some pertinent topics and observations from experienced physicians in a scientific and evidence based fashion **Medical-Surgical Nursing** Susan C. deWit,Holly

Stromberg,Carol Dallred,2016-02-05 Providing a solid foundation in medical surgical nursing Susan deWit s Medical Surgical Nursing Concepts and Practice 3rd Edition ensures you have the information you need to pass the NCLEX PN Examination and succeed in practice Part of the popular LPN LVN Threads series this uniquely understandable concise text builds on the fundamentals of nursing covering roles settings and health care trends all body systems and their disorders emergency and

disaster management and mental health nursing With updated content chapter objectives and review questions this new edition relates national LPN LVN standards to practice with its integration of QSEN competencies hypertension diabetes and hypoglycemia Concept Maps in the disorders chapters help you visualize difficult material and illustrate how a disorder's multiple symptoms treatments and side effects relate to each other Get Ready for the NCLEX Examination section includes Key Points that summarize chapter objectives additional resources for further study review questions for the NCLEX Examination and critical thinking questions Nursing Care Plans with critical thinking questions provide a clinical scenario and demonstrate application of the nursing process with updated NANDA I nursing diagnoses to individual patient problems Anatomy and physiology content in each body system overview chapter provides basic information for understanding the body system and its disorders and appears along with Focused Assessment boxes highlighting the key tasks of data collection for each body system Assignment Considerations discussed in Chapter 1 and highlighted in feature boxes address situations in which the RN delegates tasks to the LPN LVN or the LPN LVN assigns tasks to nurse assistants per the individual state nurse practice act Gerontologic nursing presented throughout in the context of specific disorders with Elder Care Points boxes that address the unique medical surgical care issues that affect older adults Safety Alert boxes call out specific dangers to patients and teach you to identify and implement safe clinical care Evidence based Practice icons highlight current references to research in nursing and medical practice Patient Teaching boxes provide step by step instructions and guidelines for post hospital care and prepare you to educate patients on their health condition and recovery Health Promotion boxes address wellness and disease prevention strategies that you can provide in patient teaching NEW Content updated with the most current health care standards including QSEN competencies hypertension diabetes and hypoglycemia to relate national standards to LPN LVN practice UPDATED Revised chapter objectives and content reflects higher level critical thinking communication patient safety and priority setting UPDATED Get Ready for the NCLEX review questions updated per the 2014 NCLEX PN test plan
