Abala,2022-08-05 In this semi autobiographical novel Imali tells an unforgettable story of Mary Upanga a young Kenyan woman's journey to USA for her studies and her ensuing hardships As a nave Logooli girl Mary is ill prepared for life outside her rural setting of Kerongo She must not only confront culture shock but also racial discrimination which shutter her sensibilities That is not all With her social security card stamped in bold letters BEARER NOT PERMITTED TO WORK she struggles to find employment to support herself Later she is forced to take on odd jobs as threats of deportation and eviction from her flat become a looming reality It does not take her long to realize that there is more to life in America than she imagined She is not alone A sea of other new African immigrants face similar fates Tales of young men who perish unable to cope with their new reality threaten her quest and dreams for success In this land of the free Mary lives a fragmented life Will she survive or succumb to the challenges of life as new African immigrant to American soil **Footsteps in the Dark** George Lipsitz,2007 Most pop songs are short lived They appear suddenly and if they catch on seem to be everywhere at once before disappearing again into obscurity Yet some songs resonate more deeply

often in ways that reflect broader historical and cultural changes In *Footsteps in the Dark* George Lipsitz illuminates these secret meanings offering imaginative interpretations of a wide range of popular music genres from jazz to salsa to rock Sweeping changes that only remotely register in official narratives Lipsitz argues can appear in vivid relief within popular music especially when these changes occur outside mainstream white culture Using a wealth of revealing examples he discusses such topics as the emergence of an African American techno music subculture in Detroit as a contradictory case of digital capitalism and the prominence of banda merengue and salsa music in the 1990s as an expression of changing Mexican Dominican and Puerto Rican nationalisms Approaching race and popular music from another direction he analyzes the Ken Burns PBS series *Jazz* as a largely uncritical celebration of American nationalism that obscures the civil rights era's challenge to racial inequality and he takes on the infamous campaigns to censor hip hop and the radical black voice in the early 1990s Teeming with astute observations and brilliant insights about race and racism deindustrialization and urban renewal and their connections to music *Footsteps in the Dark* puts forth an alternate history of post cold war America and shows why in an era given to easy answers and clichéd versions of history pop songs matter more than ever George Lipsitz is professor of black studies and sociology at the University of California Santa Barbara Among his many books are *Life in the Struggle* *Dangerous Crossroads* and *American Studies in a Moment of Danger* Minnesota 2001
