When a member of the service applies for a Restricted Parking Permit, it is permissible to have a Post Office (P.O.) box listed on the member's driver's license, registration and/or insurance card. NYPD Confidential Leonard Levitt, 2009-07-21 For years the police commissioner and the mayor of New York City have duked it out for publicity credit and power Some have translated their stardom into success after leaving office while others have been hung out to dry In the battle for control of the country's most powerful police force these high status government officials have often chosen political expediency over public honesty The result is a legacy of systemic corruption and cover ups that is nothing less than shocking Respected journalist Leonard Levitt has covered the NYPD for New York Newsday and the New York Post among other papers His columns have made him persona non grata in police headquarters In NYPD Confidential he reveals everything he's discovered throughout his decades long career With amazing details of backroom deals and larger than life powerbrokers Levitt lays bare the backstabbing power grabs and chaotic internal investigations that have run the NYPD's reputation into the ground in the past and the forces conspiring to do so once again **The NYPD Tapes** Graham A. Rayman, 2013-08-06 From the Pulitzer Prize nominated reporter an account of a modern day Serpico's battle with an all powerful police department somber and inspiring Publishers Weekly In May 2010 NYPD officer Adrian Schoolcraft made national headlines when he released a series of secretly recorded audio tapes exposing corruption and abuse at the highest levels of the police department But according to a lawsuit filed by Schoolcraft against the City of New York instead of admitting mistakes and pledging reform Schoolcraft's superiors forced him into a mental hospital in an effort to discredit the evidence In The NYPD Tapes the reporter who first broke the Schoolcraft story brings his ongoing saga up to date revealing the rampant abuses that continue in the NYPD today including warrantless surveillance and systemic harassment Through this lens he tells the broader tale of how American law enforcement has for the past thirty years been distorted by a ruthless quest for numbers in the form of CompStat the vaunted data driven accountability system first championed by New York police chief William Bratton and since implemented in police departments across the country Forced to produce certain crime stats each quarter or face discipline cops in New York and everywhere else fudged the numbers robbing actual crime victims of justice and sweeping countless innocents into the police net Rayman paints a terrifying picture of a system gone wild and the pitiless fate of the whistleblower who tried to stop it A tale of crime prevention turned upside down in the Bloomberg era Rayman has invented a new genre the police misprocedural Tom Robbins New York Times bestselling author The Secret Files: Bill Deblasio, The NYPD, and the Broken Promises of Police Reform Micheal Hayes, 2025-05-13 An unprecedented breakdown of the NYPD's powerful network of police unions pro police lawyers and top brass who work relentlessly to shield police officers from any real accountability For readers of long form hard hitting journalistic exposés like We Own This City a compelling look at how we do and don't hold police responsible in America by an award winning progressive reporter covering the NYPD police beat In 2018 reporter Michael Hayes uncovered a major story about how the NYPD was not only turning a blind eye to police misconduct but also allowing hundreds of

Kroll, Jeffrey D. Ho, 2009-02-27 TASER Conducted Electrical Weapons are rapidly replacing the club for law enforcement control of violent subjects within many countries around the globe. A TASER CEW is a hand held device that delivers a 400 volt pulse with a duration tuned to control the skeletal muscles without affecting the heart at a distance of up to 6.5 meters over tiny wires. If necessary it begins with an arcing voltage of 50,000 V to penetrate thick clothing; the 50,000 V is never delivered to the body itself. Due to the widespread usage of these devices and the widespread misconceptions surrounding their operation, this book will have significant utility. This volume is written for cardiologists, emergency physicians, pathologists, law enforcement management, corrections personnel and attorneys.

The Policing Machine Tony Cheng, 2023-12-13 A revelatory look at how the NYPD has resisted change through strategic and selective community engagement. The past few years have seen Americans express passionate demands for police transformation. But even as discussion of no knock warrants, chokeholds and body cameras has exploded, any changes to police procedures have only led to the same outcomes. Despite calls for increased accountability, police departments have successfully stonewalled change. In *The Policing Machine*, Tony Cheng reveals the stages of that resistance, offering a close look at the deep engagement strategies that NYPD precincts have developed with only subsets of the community in order to counter any truly meaningful democratic oversight. Cheng spent nearly two years in an unprecedented effort to understand the who and how of police community relationship building in New York City, documenting the many ways the police strategically distributed power and privilege within the community to increase their own public legitimacy without sacrificing their organizational independence. By setting up community councils that are conveniently run by police allies, handing out favors to local churches that will promote the police to their parishioners and offering additional support to institutions friendly to the police, the NYPD like police departments all over the country cultivates political capital through a strategic politics that involves distributing public resources, offering regulatory leniency and deploying coercive force. The fundamental challenge with police community relationships, Cheng shows, is not to build them. It is that they already exist and are motivated by a machinery designed to stymie reform.

Death Work Vincent E. Henry, 2004-04-01 In this fascinating new book, Vincent Henry, a 21 year veteran of the NYPD who recently retired to become a university professor, explores the psychological transformations and adaptations that result from police officers' encounters with death. Police can encounter death frequently in the course of their duties, and these encounters may range from casual contacts with the deaths of others to the most profound and personally consequential confrontations with their own mortality. Using the survivor psychology model as its theoretical base, this insightful and provocative research ventures into a previously unexplored area of police psychology to illuminate and explore the new modes of adaptation, thought and feeling that result from various types of death encounters in police work. The

psychology of survival asserts that the psychological world of the survivor one who has come in close physical or psychic contact with death but nevertheless managed to live is characterized by five themes psychic numbing death guilt the death imprint suspicion of counterfeit nurturance and the struggle to make meaning These themes become manifest in the survivor's behavior permeating his or her lifestyle and worldview Drawing on extensive interviews with police officers in five nominal categories rookie officers patrol sergeants crime scene technicians homicide detectives and officers who survived a mortal combat situation in which an assailant or another officer died Henry identifies the impact such death encounters have upon the individual the police organization and the occupational culture of policing He has produced a comprehensive and highly textured interpretation of police psychology and police behavior bolstered by the unique insights that come from his personal experience as an officer his intimate familiarity with the subtleties and nuances of the police culture's value and belief systems and his meticulous research and rigorous method *Death Work* provides a unique prism through which to view the individual organizational and social dynamics of contemporary urban policing With a foreword by Robert Jay Lifton and a chapter devoted to the local police response to the World Trade Center attacks *Death Work* will be of interest to psychologists and criminal justice experts as well as police officers eager to gain insight into their unique relationship to death
