**Journals as Frameworks for Professional Learning Communities** Mary E. Dietz, 2007-12-08 This guide illustrates a four step structured journaling process of purpose focus process and outcome and provides case studies sample journals and a CD ROM with implementation tools [Qualitative Data Collection Tools](#) Felice D. Billups, 2019-12-20 Qualitative Data Collection Tools is a new and unique supplementary text that will guide students and new researchers to design develop pilot

and employ qualitative tools in order to collect qualitative data. An often omitted subject in general qualitative textbooks, qualitative tools form the backbone of the data collection process. Students and new researchers are frequently left to create their own qualitative tools from scratch, an unnecessary hurdle in the qualitative research design process. Author Felice D. Billups has used her experience as a qualitative researcher and in teaching and advising students about qualitative research to develop the templates in this book as a starting point for readers conducting original qualitative research. The author briefly describes each method of data collection and offers readers suggestions for using and adapting the qualitative instrument templates within the text. Templates of interview protocols, focus group moderator guides, content analysis tools, document analysis tools, reflective questionnaires, diary and journal logs, and observational rubrics give the reader either a cut and paste solution for their own research or a starting point to design their own personalized qualitative tools. The first three chapters illuminate the qualitative data collection process and the role each type of qualitative tool plays in that process. The next six chapters provide detailed guides and numerous templates for each qualitative data collection method, covering interviews, focus groups, conversation and discourse analysis, observations, document analysis, field notes, journaling, and other reflective practices. A final chapter pulls together the multifaceted nature of qualitative research design and connects each tool back to the methodology to ensure trustworthiness and rigor in the data collection and instrument development process. Exemplars populate the appendices, offering readers concrete inspiration for ways to use and adapt the tools provided. If you have ever puzzled over how to best design qualitative tools in order to guide and structure your qualitative data collection, or if you are embarking on your first qualitative study, *Qualitative Data Collection Tools* will give you a practical starting point to help make your qualitative data collection process easier and more organized.

[Equity Visits](#) Rachel Roegman, David Allen, Larry Leverett, Scott Thompson, Thomas Hatch, 2019-08-07. Because equity and instruction are inextricably bound. Why are equity visits such a critical first step to increasing opportunity and access for our under-served students? Because they take instructional rounds to a new level, providing a powerful lens for investigating the intersections of equity and instruction. After all, how can we possibly deliver equitable learning experiences, opportunities, and outcomes for our students without first pinpointing problems of practice? That's where *Equity Visits* will prove absolutely indispensable to district and school administrators. It details how to combine a strong focus on instruction with explicit intentional efforts to address systemic inequities. Inside, you'll find a range of data collection activities and tools to target central issues of equity in your school. Clear guidelines on how to investigate the ways instructional practices, structures, and beliefs lead to inequitable educational experiences, and how these are often masked in the day-to-day life of schools and districts. A frank discussion of how to make race and racism an explicit part of investigating and addressing educational inequities. Voices of school and district leaders who have taken crucial first steps to become equity warriors. Recommendations on how to develop policies, initiatives, and practices to confront those inequities. Few dispute that instructional improvement must be a central focus of educational

leadership but for too long achieving educational equity has been absent from the conversation Here is your opportunity to ensure equity occupy a central spot in data collection and analysis and be explicitly discussed at all levels of your school or district organization In short essential reading and doing for all administrators      *Reboot and upgrade - English* Gopal Gandhi ,2025-08-29
