

Upper Body Exercises

Do all these exercises slowly. Do not hold your breath and remember to breathe out as you do the “work” part of each exercise.

If you feel any unusual pain in your joints or muscles while you exercise, do not continue the exercise.

You will need a firm chair and hand held weights or wrist weights for these exercises.

- Do each exercise _____ times.
- Do these exercises _____ times each week.

☐ Chest press

1. Sit in a chair with your head up and your back straight.
2. Start with your elbows bent holding the weights at your chest.
3. Push the weight straight out in front of you until your arms are straight.
4. Pull the weights back slowly to the start position.

☐ Chest pulls

Sit in a chair with your head up and your back straight.

1. Bring the weights to the center of your chest, about shoulder height.
2. Pull your elbows back, bringing the weights out to your shoulders.
3. Return to the start position and repeat.

Adult Physical Conditions Amy J. Mahle, Amber L. Ward, 2022-03-01 The go-to resource for class clinical and practice now in full color! A team of noted OTA and OT leaders and educators deliver practical in-depth coverage of the most common adult physical conditions and the corresponding evidence-based occupational therapy interventions. The authors blend theory and foundational knowledge with practical applications to OTA interventions and client-centered practice. This approach helps students develop the critical thinking and clinical reasoning skills that are the foundation for professional knowledgeable, creative, and competent practitioners. New Updated Content that incorporates language from the 4th Edition of the Occupational Therapy Practice Framework and aligns with the latest ACOTE standards. New Updated Full-color contemporary photographs that reflect real clients and OT practitioners in diverse practice settings. New Chapters: Occupational Justice for Diverse and Marginalized Populations, Motor Control and Neurotherapeutic Approaches, Sexual Activity and Intimacy, Dementia: Understanding and Management, and The Influence of Aging on Occupational Performance. Evidence-Based Practice highlights recent research articles relevant to topics in each chapter, reinforcing the evidence-based perspective presented throughout the text. Putting It All Together: Sample Treatment and Documentation uses evaluation, treatment, and documentation based on one relevant case from each diagnosis chapter to connect what students are learning in the classroom and the lab to real-world skilled client-centered care. Technology Trends highlights new and relevant technology or treatment trends and also shows how common technologies may be used in unique ways. Client examples provide context for how the conditions impact function and how to consider the person when doing an intervention. Case Studies based on real-life examples illustrate important learning points and feature questions to develop critical thinking and problem-solving skills. Review questions at the end of each chapter assess progress, knowledge, and critical thinking while offering practice with certification-style questions
