

MEDICO LEGAL REPORT

Your Honour,

As per requested by the Toronto Courthouse at 311 Jarvis St, Toronto ON, this report states the incidence of injury, resulting conditions sustained, necessary treatment, and summary/conclusion of the condition of the claimant, Mrs. Emma Doyle. This report is required as an expert examination to provide evidence regarding the matter of compensation to Mrs. Doyle for sustaining the medical condition of Post Traumatic Whiplash as a result of the actions of the alleged persons at fault.

My name Cassidy Peplinskie of Toronto, Ontario. I am a practicing Registered Massage Therapist and owner of a private Massage Therapy clinic within downtown Toronto. I have been certified by the College of Massage Therapists of Ontario for four years, all of which have been as an active registrant and in good standing with the College. As a Registered Massage Therapist I am a member of the Registered Health Practitioners Act (1991) and under the rule of the Massage Therapy Act (1991). I am a graduate of Humber College Institute of Technology and Advanced Learning as well as the University of Ontario Institute of Technology with a Bachelor of Allied Health Sciences (Honours). I understand the the Court is expecting me to comply with their request to provide an expert evaluation on this case, and I will do this to the best of my abilities.

In this report, the patient's Past Health History, current Physician Diagnosis, and current Registered Massage Therapy Treatment Plan are referenced to compile accurate and up to date information for the purpose of this case and evaluation. Mrs. Doyle has given her express, informed, written consent to the use of these files.

Previous to this incidence, my patient has had no related neck injuries. Mrs. Doyle has been receiving massage treatment at my clinic for muscle relaxation, as well as trigger point release therapy (release of taut bands of muscle causing pain) in her upper back and neck regions (trapezius, rhomboids, levator scapulae, and scalene muscles). Mrs. Doyle suffers from hypertension, and is taking daily hypertensive medications (Thiazide diuretics and Metoprolol [Beta Blocker]).

In the incidence of the injury, Mrs. Doyle was in the driver's seat wearing her seatbelt in her own vehicle, and halted at a red traffic light. While she was stopped, another vehicle hit hers from behind at an approximate speed of 50 km per hour. Mrs. Doyle's head was unexpectedly thrown backwards at a high velocity. Mrs. Doyle states that as a result of the shock of the accident, she cannot remember exact details, but reports feeling a deep pain in the front of her neck. Mrs. Doyle was transported by ambulance to Toronto General Hospital.

After her examination by the hospital's emergency doctor, Dr. Doe, Mrs. Doyle was diagnosed with a grade II Whiplash via physical examination and x-ray.

As a result of this diagnosis, Mrs. Doyle was referred by her physician to seek aid by way of alternative health care, as there was no fracture or disc dysfunctions present.

Mrs. Doyle decided to continue to receive care in my practice, and came in for an assessment appointment the second day after her injury.
