Congress. House. Appropriations, 1949 **Hearings** United States. Congress. House, 1949 *Hearings* United States. Congress. House. Committee on Appropriations, 1965 *Research Trends in Intercultural Pragmatics* Istvan Kecskes, Jesús Romero-Trillo, 2013-10-29 This volume looks at current issues in Intercultural Pragmatics from an applied perspective The content is organized in three sections that encompass the primary applications of intercultural exchanges the linguistic and cognitive domain the social and cultural domain and the discourse and stylistics domain The chapters analyze real language situations in English Russian Chinese Portuguese Spanish Greek Filipino or Polish Reconstructing Satyr Drama Andreas P. Antonopoulos, Menelaos M. Christopoulos, George W. M. Harrison, 2021-07-05 The origins of satyr drama and particularly the reliability of the account in Aristotle remains contested and several of this volume's contributions try to make sense of the early relationship of satyr drama to dithyramb and attempt to place satyr drama in the pre Classical performance space and traditions What is not contested is the relationship of satyr drama to tragedy as a required cap to the Attic trilogy Here however how Aeschylus Sophocles and Euripides to whom one complete play and the preponderance of the surviving fragments belong envisioned the relationship of satyr drama to tragedy in plot structure setting stage action and language is a complex subject tackled by several contributors The playful satyr chorus and the drunken senility of Silenos have always suggested some links to comedy and later to Atellan farce and phlyax Those links are best examined through language passages in later Greek and Roman writers and in art The purpose of this volume is to probe as many themes and connections of satyr drama with other literary genres as well as other art forms putting satyr drama on stage from the sixth century BC through the second century AD The editors and contributors suggest solutions to some of the controversies but the volume shows as much that the field of study is vibrant and deserves fuller attention Thanking Formulae in English Sabine Jautz, 2013-04-04 In the present study the use of thanking formulae is examined across different genres and varieties of English Data is taken from the British National Corpus and the Wellington Corpus of Spoken New Zealand English Employing a form to function mapping thanking formulae are not only analysed quantitatively but also qualitatively accounting for local contexts and genre Additionally the status of thanking formulae is examined in the most prominent models of politeness and the interpersonal relation amongst the interlocutors is investigated The first part is devoted to a variational analysis which is supplemented by a genre perspective in the second part The findings of the study contribute new insights to research on thanking formulae politeness variational pragmatics and media discourse Digest, 1923 The Functional Perspective on Language and Discourse María de los Ángeles Gómez González, Francisco José Ruiz de Mendoza Ibáñez, Francisco González García, Angela Downing, 2014-05-15 Over the last forty years the functionalist approach to linguistic description and

explanation has given rise to several major schools of thought that share two crucial assumptions i form is not independent of meaning function or language use and ii linguistic description and explanation need to take into account the communicative function of language This volume offers readers interested in functional linguistics a selected sample of studies that jointly prove the efficacy of the analytical tools and procedures broadly accepted within the functionalist tradition in order to investigate language and discourse with special focus on key pragmatic discourse notions such as contextualization grammaticalisation reference politeness in directness discourse markers speech acts subjective evaluation and sentiment analysis in texts among others In addition this volume offers specific corpus based techniques for the objective contextualisation of linguistic data which is crucial given the central role allotted to context in both functional linguistics and pragmatics discourse analysis **The Late John Marquand** Stephen Birmingham,1972 *Hearings, Jan. 9-10, 1940*
