Records and archival arrangements in Australia are globally relevant because Australia's indigenous people represent the oldest living culture in the world and because modern Australia is an ex colonial society now heavily multicultural in outlook Archives and Societal Provenance explores this distinctiveness using the theoretical concept of societal provenance as propounded by Canadian archival scholars led by Dr Tom Nesmith The book's seventeen essays blend new writing and reworkings of earlier work comprising the first text to apply a societal provenance perspective to a national setting After a prologue by Professor Michael Moss entitled A prologue to the afterlife this title consists of four sections The first considers historical themes in Australian recordkeeping The second covers some of the institutions which make the Australian archival story distinctive such as the Australian War Memorial and prime ministerial libraries The third discusses the formation of archives The fourth and final part explores debates surrounding archives in Australia The book concludes by considering the notion of an archival afterlife Presents material from a life's career working and thinking about archives and records and their multiple relationships with history biography culture and society The first book to focus specifically on the Australian archival scene Covers a wide variety of themes including the theoretical concept of the records continuum census records destruction Prime Ministerial Libraries and the documentation of war Manuscripts and Archives Alessandro Bausi, Christian Brockmann, Michael Friedrich, Sabine Kienitz, 2018-02-19 Archives are considered to be collections of administrative legal commercial and other records or the actual place where they are located They have become ubiquitous in the modern world but emerged not much later than the invention of writing Following Foucault who first used the word archive in a metaphorical sense as the general system of the formation and transformation of statements in his Archaeology of Knowledge 1969 postmodern theorists have tried to exploit the potential of this concept and initiated the archival turn In recent years however archives have attracted the attention of anthropologists and historians of different denominations regarding them as historical objects and grounding them again in real institutions The papers in this volume explore the complex topic of the archive in a historical systematic and comparative context and view it in the broader context of manuscript cultures by addressing questions like how by whom and for which purpose were archival records produced and if they differ from literary manuscripts regarding materials formats and producers scribes *Preserving Archives* Helen Forde, Jonathan Rhys-Lewis, 2013-03-23 A brand new and fully updated edition of this seminal work on archival preservation Access to archival material the documentary heritage of people all over the world that gives them their identity and ensures their rights is dependent on the survival of fragile materials paper parchment photographic materials audiovisual materials and most recently magnetic optical and increasingly digital formats The primary importance of such survival is widely acknowledged but sometimes overlooked in a rush to provide ever better means of access But without the basic material no services can be offered Preservation is at the heart of archival activity Archivists in all types of organizations face questions

on how to plan a preservation strategy in less than perfect circumstances or deal with a sudden emergency This book considers the causes of threats to the basic material outlines the preservation options available and offers flexible solutions applicable in a variety of situations It offers a wide range of case studies and examples from international specialists This revised edition includes additional material on digital preservation and green building as well as a new chapter on the management and training of volunteers reflecting a key concern for many archival institutions Key topics are Understanding archival materials and their characteristics Managing digital preservation Archive buildings and their characteristics Safeguarding the building and its contents Managing archival storage Managing risks and avoiding disaster Creating and using surrogates Exhibiting archives Handling the records Managing a pest control programme Training and the use of volunteers Putting preservation into practice Readership Archivists librarians curators and enthusiasts trained and untrained in museums local studies centres and voluntary societies in need of good clear advice

Democracy Against Parties

Brandon Van Dyck, 2021-09-21 Around the world established parties are weakening and new parties are failing to take root In many cases outsiders have risen and filled the void posing a threat to democracy Why do most new parties fail Under what conditions do they survive and become long term electoral fixtures Brandon Van Dyck investigates these questions in the context of the contemporary Latin American left He argues that stable parties are not an outgrowth of democracy On the contrary contemporary democracy impedes successful party building To construct a durable party elites must invest time and labor and they must share power with activists Because today s elites have access to party substitutes like mass media they can win votes without making such sacrifices in time labor and autonomy Only under conditions of soft authoritarianism do office seeking elites have a strong electoral incentive to invest in party building Van Dyck illustrates this argument through a comparative analysis of four new left parties in Latin America two that collapsed and two that survived

Peace, 2015-05-01 This new volume showcases the latest research into Muslim political participation both in terms of electoral politics and civil society initiatives Muslims play a prominent role in British political life yet what do we actually know about the involvement of British Muslims beyond the existence of a handful of Muslim MPs What is unique about political participation in Muslim communities All the major parties actively seek to court a Muslim electorate but does such a phenomenon exist Despite the impact that Muslims have had on election campaigns and their roles in various political institutions research on this topic remains scant Indeed much of the existing work was couched within the broader areas of

Counterinsurgency Wars and the Anglo-American Alliance Andrew Mumford, 2018-01-02 Andrew Mumford challenges the notion of a special relationship between the United States and United Kingdom in diplomatic and military affairs the most vaunted and he says exaggerated of associations in the post 1945 era Though they are allies to be sure national self interest and domestic politics have often undercut their relationship This is the first book to combine a history of US UK interaction during major counterinsurgency campaigns since 1945 from Palestine to Iraq and Afghanistan with a critical examination of the so called special relationship that has been tested during these difficult protracted and costly conflicts Mumford s assessment of each nation s internal political discussions and diplomatic exchanges reveals that in actuality there is only a thin layer of specialness at work in the wars that shaped the postcolonial balance of power the fight against Communism in the Cold War and the twenty first century war on terror This book is especially timely given that the US UK relationship is once again under scrutiny because of the Trump administration s America First rhetoric and Britain s changing international relations as a result of Brexit Counterinsurgency Wars and the Anglo American Alliance will interest scholars and students of history international relations and security studies as well as policy practitioners in the field
