SAT 4000 Jeff Kolby, 2021-01-15 The reading section of the SAT is essentially a vocabulary test With a few exceptions if you know the word you will probably be able to answer the question correctly Thus it is crucial that you improve your vocabulary Even if you have a strong vocabulary you will still encounter unfamiliar words on the SAT Many students write off questions which contain words they don t recognize This is a mistake This book introduces numerous techniques that decode unfamiliar words and prod your memory of words you only half remember With these techniques you will often be able to squeeze out enough meaning from an unfamiliar word to answer a question correctly Nevertheless don t rely on just these techniques you must study word lists Obviously you cannot attempt to memorize the dictionary and you don t need to The SAT tests a surprisingly limited number of words and this book has 4000 prime candidates Granted memorizing a list of words is rather dry but it is probably the most effective way of improving your performance on the verbal section All the words you need for success on the SAT Features 4000 Words defined Word Analysis section Sentence Completion section 200 Prefixes Roots and Suffixes Concise practical definitions
