

WHISKEY MAKING

1

PREP

Grains are ground and cooked and barley is malted

2

MASHING

Grains and barley are added to warm water, converting into a liquid known as mash

3

FERMENTING

Mash is added to a fermentation tank with yeast. Yeast converts sugar to carbon dioxide and alcohol. After 3-4 days the mash has turned into distiller's beer (low wine)

4

DISTILLING

The wash is heated, turning alcohol into vapor. The alcohol is collected in a second container and is now known as high wine or new whiskey

5

AGING

Water is added to new whiskey and stored in wooden barrels and is stored for at least 3-4 years, sometimes up to 15 years

Home Production of Vodkas, Infusions & Liqueurs Stanley Marianski, Adam Marianski, 2012-09 *Home Production of Vodkas Infusion and Liqueurs* is another first of its kind book from Stanley and Adam Marianski This is not just a collection of recipes but a set of rules that govern the process of making vodka and other alcoholic beverages A quote from the book From the start we decided not to write another recipe book A collection of recipes does not make a person proficient in a new skill You have to know the How and Why of making spirits you have to know the rules that govern the process First of all you have to realize that alcohol is just a tool albeit a very important one Once you understand how to manipulate the properties of alcohol the rest will fall into place To get the reader started a collection of 103 detailed recipes are included which can be studied and used as a reference By carefully reading this book you will discover that producing new spirits is almost like cooking one needs to first know the basics and then let the imagination run wild Everything falls into place and making new drinks becomes routine After practicing the technique of creating drinks a couple of times the spirits will consistently be of high quality become crystal clear and look beautiful The process can become an art form

[Alcoholic drinks and mixtures made from natural ingredients](#), 2024-04-04 This book is about brewing in general not just making beer but having fun fermenting all kinds of delicious concoctions with whatever we find on offer from nature be that the wilderness or our backyards or gardens We're talking odd wild and primitive beers sodas herbal meads inebriating or not infusions and many other types of fermented drinks that are sometimes hard to classify

It's about exploring boozy possibilities in creative ways the way humans have for a very long time What's not to like about that My big discovery when working on this book was the fact that brewing is really a continuous linear activity We like to chop up this creative line into small discrete segments and impose etiquettes on them That's a beer that's a wine or that's a soda But the truth is that humans since the dawn of time have been brewing boozy concoctions that often transcend regular labels You'll find all kinds of interesting drinks that are really a blend between beers and wines or sodas and beers And it's all good Brewing should be about creativity flavors and in some cases medicinal applications Like many enjoyable activities it's a lot less fun when you're told what you can or cannot do It's an interesting statement for an author to make but I would like you to look at this book not in terms of precise recipes you can make at home but more as a book of concepts and ideas that will enable you to explore and create with your own local ingredients The fun is really in dreaming up and brewing your own delicious drinks so look at the techniques described here and see what you can come up with If there is an overall message I want to convey it is that brewing is fun adventurous and extremely rewarding Don't be afraid to experiment You might make a few mistakes here and there mostly in the beginning but those will be dwarfed by the countless yummy drinks you'll create and be successful at making Hopefully the basic procedures in this book will help and I can't wait to hear about the delicious beverages you'll make with the plants surrounding you If you already have experience in making beers you may find some of the methods described here a bit primitive and unusual the use of molasses and other sources of sugar including insect honeydew instead of malt wild yeast extraction from local fruits flowers and plants unusual bitter wild plants instead of regular hops and the overall lack of grains I hope this book will nevertheless inspire you to explore your own terroir and possibly integrate some local flavors into your brews The most important message from this book is really Explore have fun and create That's the stuff life should be made of

Bootleggers and Beer Barons of the Prohibition Era J. Anne Funderburg, 2014-04-30 This work is an accurate wide ranging and entertaining account of the illegal liquor traffic during the Prohibition Era 1920 to 1933 Based on FBI files legal documents old newspapers and other sources it offers a coast to coast survey of Volstead crime outrageous stories of America's most notorious liquor lords including Al Capone and Dutch Schultz Readers will find the lesser known Volstead outlaws to be as fascinating as their more famous counterparts The riveting tales of Max Hassel Waxy Gordon Roy Olmstead the Purple Gang the Havre Bunch and the Capitol Hill Bootlegger will be new to most readers Likewise the exploits of women bootleggers and flying bootleggers are unknown to most Americans Books about Prohibition usually note that Canadian liquor exporters abetted the U.S. bootleggers but they fail to go into detail **Every Home a Distillery** Sarah H.
