my cookie design A microwaveable cookie a cookie in the shape of an ice cream cone and a cookie spoon were among the designs of marketable product based cookies I have spent the past few summers developing microwave susceptors for food products like Nestle Hot Pockets at a microwave packaging company I wanted to make a microwave based cookie that didn't need an oven because of my technical background in this area Sadly the first experiments with this idea resulted in an unpalatable cookie I went back to my original fruit based ideas after spotting a pattern in the cookie quality that correlated with a change in the cookie method
