

It should be clear which ideas are yours and which belong to someone else.¹ Including sources in your text should be done “through quotation, paraphrasing, summarising, analysis, interpretation, discussion and evaluation of sources.”²

When citing sources in your text, “make sure they are placed where they belong.”³ There are two elements to citing sources in your text in the Chicago notes and bibliography style: (1) a superscript note number should be placed at the end of a sentence or clause, and after a quotation;⁴ (2) a corresponding footnote at the bottom of the page.

A bibliography provides the full details of sources at the end of your assignment.⁵ Every source cited should be in your bibliography.⁶
