Digital Technologies and Applications Saad Motahhir, Badre Bossoufi, 2024-08-16 This book presents volume 1 of selected research papers presented at the fourth International Conference on Digital Technologies and Applications ICDTA 24. Highlighting the latest innovations in digital technologies as artificial intelligence, Internet of Things, embedded systems, chatbot, network technology, digital transformation and their applications in several areas as Industry 4.0, sustainability, energy transition and healthcare, the book encourages and inspires researchers, industry professionals and policymakers to put these methods into practice. *American English File 3E Starter Student Book* Christina Latham-Koenig, Clive Oxenden, Jerry Lambert, 2019-08-15 American English File Second Edition retains the popular methodology developed by world renowned authors Christina Latham Koenig and Clive Oxenden. Language motivation opportunity. With grammar, vocabulary and pronunciation practice in every lesson, students are equipped with a solid foundation for successful speaking. Plus an array of digital resources provides even more choice and flexibility. Students can learn in the classroom or on the move with Online Practice language assessment. The first goal is to explore the difference between fairness and justice in language assessment. The authors distinguish internal and external dimensions of the equitable and just treatment of individuals taking language tests which are used as gatekeeping devices to determine access to education and employment, immigrant status, citizenship and other rights. The second goal is to show how the extent of test fairness can be demonstrated and improved using the tools of psychometrics, in particular the models collectively known as Rasch measurement. This book will have an enormous impact on the field of language assessment. Using Rasch analysis models to explore and identify sources of unfairness, the authors make a compelling case for fairness in the design.
