The story Gold Chain is about a middle class family whose golden thread lies in its ability to judge and justify every action of any individual with confidence and conviction. Sometimes people and times may not always connect and we need to accept all that which happens in our lives with grit and fortitude.

Randomness follows the life of a street vendor who equally believes that his connections are money and the world would accept his definition as that. Fate has it when he returns a broken truck that it is he who needs to change and not the world for the sake.

Freedom is a real life accident that happened to a young girl yet the fictional aspects added gives it a different flavor and setting. Medicine cannot help the mind if it chooses to wander and so one can truly analyze or comprehensively explain what the human brain can accept.

When time changes is the story of a woman in a Durgam chawl. Although there are many such stories across in our society today, no one truly seems to share the concerns of the common man, woman and they are left to fend for themselves.

Lost time my darling is the story of a child who was saved but with the support and love of his mother fights the battle to survive and explain her life. It's the probability that people share that makes life worth living.

The night that changed my life is about a teenager who learns a thing or two about life in a short period that she undertakes with friends and family. It is an eye-opener for the young girl who realizes that the world is not what we assume that it perhaps.

The green grass is about a doctor who believes that their lives is worth everything since they could realize their dreams. But when their dreams are fulfilled, it's time to create another dream and not to continue believing in the longevity of the dream to last forever.

Indignation Mine is the story of a woman who continues to believe in a strong and resilient person. He becomes always trapped people into categories and sometimes its called too late. The world does promise many such people who break away a myth from and again and make us introspect about our ability to pass a judgement.

It's for a quiet beach into the life of a group of women who lead lives which is different and isolated from each other, yet connected enough to make them realize that while the river remains the same, the banks don't differ from one to the other.

No stones left turned is about a teacher's journey. There is no second marriage, just a daughter from the teacher's life, while the journey from glass to glass and makes friends and truly makes her life.

EARLY INDIA Dr. Arun kumar, 2020-07-29 India has a rich tradition of learning and education from the time immemorial These were handed over generation to generation either through oral or written media The basic characteristics of Ancient or Hindu civilization is that it has been moulded and shaped the course of its history more by religious than by political or economic influences The Early Educational System in India was based on the conception of Brahmacharya which laid greater emphasis on carya than mere learning The system was established on the tie of constant association between the teacher and the taught The Sanskrit word for pupil was antevasin while acarya stood for the preceptor A student was known by the word Brahmachari The religious student belonging to the caste of Brahmana Kshatriya or Vaisya was known by the term Varni As a pupil he was known as Chatra because his duty was always to be at his teacher s service and to protect him from any harm

just like an umbrella The antevasin was to lead the life of a regular Brahmacharin in the house of his teacher Special hostels for female students had also come into existence known as Chatrisala i e Lady s Hostel *Addresses and Proceedings - National Education Association of the United States* National Education Association of the United States,1924 Vols for 1866 70 include Proceedings of the American Normal School Association 1866 69 include Proceedings of the National Association of School Superintendents 1870 includes Addresses and journal of proceedings of the Central College Association

Donald Boudreau,Eric Cassell,Abraham Fuks,2018-02-26 The renewal of medical curricula generally arises from emerging pedagogies e g problem based learning new technologies e g high fidelity simulation or prevailing sociocultural forces e g complexity of health care delivery and team based care Approximately 15 years ago a team of physicians and administrators sought to take this further by considering the very nature of medical practice and the patient physician relationship that is the context and conduit of caring and care they restructured the composition and function of medical education This book Physicianship and the Rebirth of Medical Education is the authoritative publication on the philosophy design and implementation of this new curriculum From first year to graduation this book reimagines the education of medical students in its entire scope It discusses the epistemology of clinical practice and pedagogical methods and addresses pragmatic issues of curricular implementation The educational blueprint presented in the book rests on a new definition of sickness one focused on impairments of function as the primary issue of concern for

both patients and their care givers This perspective avoids the common shift of medical attention from persons to diseases and thus provides the basis for an authentic and robust patient centered mindset The title of the book refers to a rebirth This implies that there was a previous birth Indeed the critical ingredients of medical education were articulated historically and many features emanate from a time honored apprenticeship model This book recognizes in William Osler and his natural method of teaching the subject of medicine the foundational elements for teaching physicianship The practice of medicine is indelibly relational and in turn medical education is an intellectual and an emotional journey that is rooted in clinical relationships As this book shows medicine must unfold in the context of patient care patients not diseases should be the center of attention
