

Assessment Procedures Glenfield College 2014

For the National Qualifications Framework

Courses

Introduction

Teachers assess how well students understand different aspects of a course against national standards. Assessment can be external, through examination at the end of the year, portfolio based, as in Technology and Visual Arts, or internal during the year at school.

When Unit Standards are assessed, in most cases you receive one of two 'grades': Not Achieved or Achieved. When Achievement Standards are assessed, you receive one of four 'grades': Not Achieved, Achieved, Merit, Excellence.

When you meet the standard you earn credits towards your National Certificate of Educational Achievement or other National Qualifications as part of the National Qualification Framework.

Course Choices

After the Academic Interviews and having looked at the Curriculum Hand Book, students need to complete and hand in a signed option form at the correct time in order to be considered for a course. HOD/TIC check option lists carefully to make sure students opting for their course are placed at the correct level and meet any prerequisites.

Wherever possible departments try to run multi level courses to cope with students' differing ability levels.

Departments have the right to set the level the student studies at, in consultation with the student, parent and Dean of that year level.

Note:- Courses will only run if sufficient numbers of students opt for a course, and rooming and staffing are possible. Timetable clashes may also limit a student's ability to select a particular course.

Entry and Eligibility Requirements

Only students enrolled in the current year in a course of study at Glenfield College are eligible to enter for an internally assessed standard in that course, unless special dispensation is granted by the Principal's NZQA Nominee (Ki).

Course Outlines and Assessment Deadlines

Each student will be issued with a course outline for each subject at the start of the year, which should include:

- the general course overview, including the knowledge and skills to be taught
- the standards in the course, including their registration number, version number, their credit value and assessment method
- the date and nature of the assessment to be completed
- subject specific assessment procedures
- wherever possible, a personal record sheet for recording grades. (May be part of course hand book.)

Assessing Foreign Language Students' Spoken Proficiency Martin East, 2016-02-02 This book presents an in depth study of assessment innovation and its impact on teaching and learning The context is New Zealand and the focus is additional languages other than English and the recent introduction of a radical new assessment of students spoken proficiency called interact The book crosses the traditional theoretical and methodological boundaries associated with language testing research which focuses on assessment performance and presents an alternative approach where stakeholders become the centre of interest It advances our understanding of how assessment innovation impacts on two key groups teachers and students in schools based on data collected from a substantial two year research project It presents an account of these stakeholders perceptions of the validity and usefulness of the new assessment in comparison with the more traditional test that it has replaced Assessing Foreign Language Students Spoken Proficiency makes an outstanding and original contribution to the field of second and foreign language teaching providing a theory and research based account of the development of a learner centred approach to oral proficiency assessment It is an important resource for teachers and teacher educators as well as assessment and curriculum specialists worldwide It deserves to be widely read

Collaborating to Meet Language Challenges in Indigenous Mathematics Classrooms Tamsin Meaney, Tony Trinick, Uenuku Fairhall, 2011-10-03 Language can be simultaneously both a support and a hindrance to students learning of mathematics When students have sufficient fluency in the mathematics register so that they can discuss their ideas they become chiefs who are able to think mathematically However learning the mathematics register of an Indigenous language is not a simple exercise and involves many challenges not only for students but also for their teachers and the wider community Collaborating to Meet Language Challenges in Indigenous Mathematics Classrooms identifies some of the challenges political mathematical community based and pedagogical to the mathematics register faced by an Indigenous school in this case a M ori immersion school It also details the solutions created by the collaboration of teachers researchers and community members

Resisting Qualifications Reforms in New Zealand, 2019-02-18 New Zealand has been a veritable laboratory for a range of social experiments in the last twenty years including an arranged marriage with neo liberal economic policies during the late 80s and 90s These experiments extended to education where students teachers teacher educators and researchers have experienced wide ranging reforms in administration curriculum and qualifications The most contentious of these have been a series of untried and radical qualifications reforms This book offers a critical examination of these reforms from the perspective of a group of educators who resisted them by doing the unthinkable devising their own

 Western Samoa. Department of Education,1996 **Media Education in Asia** Chi-Kim Cheung,2009-06-12 Media education
 in Asia is a relatively young but rapidly developing part of the curriculum Research has been conducted and papers have
 been written on various issues concerning media education in Asia The dominant models of media education in the world are
 broadly Western and most are drawn from English speaking countries The question is whether a similar pattern exists in Asia
 where there may be differences in culture heritage beliefs values education policy as well as curriculum and pedagogy Are
 educators in Asia following the Western model in developing and implementing media education or are they devising their
 own models With this question in mind this book sets out to understand the prevailing perspectives regarding media
 education in various Asian societies While most debates about media education are carried out in Western contexts this book
 hopes to provide a platform for readers to examine this issue in an Asian context Proceedings of the ... Conference New

Problem in New Zealand Education Megan Lourie,Graham McPhail,2021-08-06 This book offers new ideas for thinking
 about how more equitable outcomes might be achieved in New Zealand so that all students are well equipped to live and
 work in contemporary society It addresses a social justice concern about access to the unique affordances of subject
 knowledge which comprises two forms of knowledge propositional knowledge that and applied knowledge know how to The
 book provides perspectives on curriculum design by grounding arguments in a theory of knowledge It describes the different
 knowledge forms of the theory and argues that understanding these differences is significant for curriculum design and
 enactment It explains why the current imbalance between knowledge forms is a problem and offers suggestions for change
 Understanding about knowledge itself enables more just and equitable outcomes for all students This book illustrates how
 different knowledge types and forms can be used together productively to help students develop adaptive expertise for the
 21st century making it a valuable contribution to the field of education *Hospitality* ,1997-02 Research on Reasoning

 Reston,2023-07-21 This book is derived from selected papers from the Fourteenth International Congress on Mathematical
 Education Topic Study Group 12 Teaching and Learning Statistics It describes recent research on curriculum pedagogy and
 outreach initiatives from countries as diverse as Brazil Chile Columbia Denmark Germany the Netherlands Spain Sweden
 Thailand Turkey the United Kingdom and the United States The book has a focus on the use of data in the teaching and
 learning of statistics across grade levels and begins with an overview of the status of statistics education and the use of data
 from seven different countries across the continents and the link between research and practice in those countries Because it
 contains specific examples of the research for example on the ways children learn the choice and implementation of tasks or
 the role of informal inference the book will be a great resource to those interested and involved in the teaching of statistics
