Ebook: Urban Economics O'SULLIVAN,2012-01-16 Ebook Urban Economics *Urban Land Economics* Jaime Luque,2015-03-28 This book covers the main aspects of regional and urban economics and presents state of the art theories in a comprehensive and concise way The book will be of interest to undergraduates in business and economics and covers specific areas such as real estate urban and regional planning and geography and development studies **Fundamentals of Urban Geography** Dr. Anoop Kumar Singh,2021-09-11 Urban geography forms the theoretical basis for a number of professions including urban planning site selection real estate development crime pattern analysis and logistical analysis There are essentially two approaches to urban geography The study of problems relating to the spatial distribution of cities themselves and the complex patterns of movement flows and linkages that bind them in space Studies in this category are concerned with the city system Secondly there is the study of patterns of distribution and interaction within cities essentially the study of their inner structure Studies in this category are concerned with the city as a system A succinct way to define urban geography that recognizes the link between these two approaches within the subject is then that urban geography is the study of cities as systems within a system of cities Cities differ in their economic makeup their social and demographic characteristics and the roles they play within the city system These differences can be traced back to regional variations in the local resources on which growth was based during the early development of the urban pattern and in part the subsequent shifts in the competitive advantage of regions brought about by changing locational forces affecting regional specialization within the framework of the market economy Recognition of different city types necessitates their classification and it is to this important aspect of urban geography that we now turn The book covers basic aspects of the subject provides an example of a student research report This book provides a separate chapter for each aspect of the subject Contents Human Migration Housing and Slums Urban Ecology Urban Housing Architecture of Housing Geographic Information System Geography and Three Space Dimensions Cultural Environmentalism The Issue of Environmentalism Ecological Issues of Farming **Urban Economics** Arthur O'Sullivan,1996 Bringing urban issues into a modern microeconomic framework this work uses basic economic analysis to explain why cities exist where they develop how they grow and how various activities are arranged within them Census data is incorporated into the text and used in charts and tables Reconstructing Urban Economics Franklin Obeng-Odoom,2016-08-15 Neoclassical economics the intellectual bedrock of modern capitalism faces growing criticisms as many of its key assumptions and policy prescriptions are systematically challenged Yet there remains one field of economics where these limitations continue virtually unchallenged the study of cities and regions in built environment economics In this book Franklin Obeng Odoom draws on institutional Georgist and Marxist economics to clearly but comprehensively show what the key issues are today in thinking about urban economics In doing so he demonstrates the widespread tensions and contradictions in the status quo showing how to reconstruct urban economics in order to create a

more just society and environment Planning within Complex Urban Systems Shih-Kung Lai, 2020-12-17 Imagine living in a city where people could move freely and buildings could be replaced at minimal cost Reality cannot be further from such Despite this imperfect world in which we live urban planning has become integral and critical especially in the face of rapid urbanization in many developing and developed countries This book introduces the axiomatic experimental approach to urban planning and addresses the criticism of the lack of a theoretical foundation in urban planning With the rise of the complexity movement the book is timely in its depiction of cities as complex systems and explains why planning from within is useful in the face of urban complexity It also includes policy implications for the Chinese cities in the context of axiomatic experimental planning theory **Research Handbook on Housing, the Home and Society** Keith Jacobs, Kathleen Flanagan, Jacqueline De Vries, Emma MacDonald, 2024-08-06 This dynamic Research Handbook explores key perspectives topics and methodologies used to understand housing the home and society Pairing social theory with a broad range of case studies from the Global North and South it offers a unique insight into the field **Distributional Effects of Environmental and Energy Policy** Don Fullerton, 2017-05-15 Many effects of environmental and energy policy are likely to disproportionately burden those with low income First it raises the price of fossil fuel intensive products that constitute a high fraction of low income budgets like gasoline heating fuel and electricity Second the handout of pollution permits to firms provides value to those who own them Third low income individuals may place more value on food and shelter than on improvements in environmental quality so high income individuals may get the most benefit of pollution abatement Fourth air quality improvements may raise the value of houses owned by landlords rather than helping renters These effects might all hurt the poor more than the rich This book brings together the seminal economics literature that studies whether these fears are valid and whether anything can be done about them *Entrepreneurial Urban Regeneration* Rezart Prifti, Fatma Jaupi, 2020-11-15 In today's world towns and cities dynamically develop over time and that's why urban regeneration is a widely experienced phenomenon How can Business Improvement Districts BIDs create necessary conditions for the development of these phenomena What is the role that BIDs have in entrepreneurial urbanism supporting SMEs city marketing and city branding These are questions examined in this volume in an effort to provide an extensive analysis of business improvement districts Enriched with an analysis of various case studies including South Africa Ontario Tokyo Barcelona Slovenia and with an in field analysis of a cultural heritage site Korca Albania the book analyses the importance benefits and impacts of this kind of organization It highlights the social economic and ecologic challenges to the historic city markets today which led to their rapid stagnancy This book offers a practical and structured guide of the concept of Business Improvement Districts and highlights the best practices for management financing and organizing It sheds light on the impacts and benefits of business improvement districts offering conclusions about their influence on the future improvement of cultural and urban sites It will be of value to researchers academics professionals and students in the fields of

management organizational studies strategy and sustainable development of tourism districts *Network Theory and Agent-Based Modeling in Economics and Finance* Anindya S. Chakrabarti, Lukáš Pichl, Taisei Kaizoji, 2019-10-23 This book presents the latest findings on network theory and agent based modeling of economic and financial phenomena In this context the economy is depicted as a complex system consisting of heterogeneous agents that interact through evolving networks the aggregate behavior of the economy arises out of billions of small scale interactions that take place via countless economic agents The book focuses on analytical modeling and on the econometric and statistical analysis of the properties emerging from microscopic interactions In particular it highlights the latest empirical and theoretical advances helping readers understand economic and financial networks as well as new work on modeling behavior using rich agent based frameworks Innovatively the book combines observational and theoretical insights in the form of networks and agent based models both of which have proved to be extremely valuable in understanding non linear and evolving complex systems Given its scope the book will capture the interest of graduate students and researchers from various disciplines e g economics computer science physics and applied mathematics whose work involves the domain of complexity theory Theme Cities: Solutions for Urban Problems Wayne K.D. Davies, 2015-03-23 This book reviews a series of new urban ideas or themes designed to help make cities more liveable sustainable safe and inclusive Featuring examples drawn from cities all over the world the various chapters provide critical assessments of each of the various approaches and their potential to improve urban life New Urbanism creating new areas based on a more humane scale with neighbourhood cohesion Just Cities creating more fairness in decision making so all residents can participate and benefit Green Cities helping places become greener with environmental rehabilitation and protection Sustainable Cities avoiding the waste of resources and harmful pollution in settlements Transition Towns developing local initiatives for more sustainable actions Winter Cities making cities in cold climates more comfortable and enjoyable Resilient Cities strengthening cities to better enable them to withstand natural hazards Creative Cities supporting cultural industries and attracting talented individuals Knowledge Cities creating renewing and spreading knowledge and innovation Safe Cities ensuring that citizens are better protected against criminal actions Healthy Cities making improvements in the health of people in cities Festive Cities rediscovering the utility of festive events in settlements Slow Cities enhancing locally unique activities such as local cuisines and community interactions This volume offers a host of approaches designed to give a new direction and focus to planning policies helping readers to fully understand the advantages and disadvantages of each potential idea It seeks to solve the many current problems associated with urban developments making it a valuable resource for university and college students in urban geography urban planning urban sociology and urban studies as well as to planners and the general public **Residential Real Estate** Anupam Nanda, 2019-03-20 Residential Real Estate introduces readers to the economic fundamentals and emerging issues in housing markets The book investigates housing market issues within local regional national and international contexts in
