Of Parties In General:

Of Parties in General David Hume,2020-09-28 OF all men that distinguish themselves by memorable achievements the first place of honour seems due to LEGISLATORS and founders of states who transmit a system of laws and institutions to secure the peace happiness and liberty of future generations The influence of useful inventions in the arts and sciences may perhaps extend farther than that of wise laws whose effects are limited both in time and place but the benefit arising from the former is not so sensible as that which results from the latter Speculative sciences do indeed improve the mind but this advantage reaches only to a few persons who have leisure to apply themselves to them And as to practical arts which encrease the commodities and enjoyments of life it is well known that men s happiness consists not so much in an abundance of these as in the peace and security with which they possess them and those blessings can only be derived from good government Not to mention that general virtue and good morals in a state which are so requisite to happiness can never arise from the most refined precepts of philosophy or even the severest injunctions of religion but must proceed entirely from the virtuous education of youth the effect of wise laws and institutions I must therefore presume to differ from Lord BACON in this particular and must regard antiquity as somewhat unjust in its distribution of honours when it made gods of all the inventors of useful arts such as CERES BACCHUS _SCULAPIUS and dignify legislators such as ROMULUS and THESEUS only with the appellation of demigods and heroes

Election Manifestos 1900-1997 Iain Dale,Iain Dale Nfa,2012-10-02 This volume brings together for the first time the British Conservative Political Party General Election Manifestos dating back to 1900 and including the most recent General Election manifesto of 1997 The project provides an indispensable source of data about the Conservative Party s political ideologies and policy positions as well as charting their changes over time The volume has a new introduction written by Alistair B Cooke who was Deputy Director of the Conservative Research Department from 1985 to 1997 and the Director of the Conservative Political Centre from 1988 to 1997 During that time he edited some 300 pamphlets for the Conservative Party along with 6 volumes of its comprehensive record policy the Campaign Guide and collections of Margaret Thatcher and John Major s speeches He is also the editor of The Conservative Party Seven Historical Studies 1680 to the 1990s In addition to the new introduction the volume will include a comprehensive index making it easy to use *General Principles of Law and International Due Process* Charles T. Kotuby, Jr.,Luke A. Sobota,Center for International Legal Education (CILE) University of Pittsburgh School of Law,2017-02-10 Article 38 of the Statute of the International Court of Justice defines international law to include not only custom and convention between States but also the general principles of law recognized

by civilized nations within their municipal legal systems In 1953 Bin Cheng wrote his seminal book on general principles identifying core legal principles common to various domestic legal systems across the globe This monograph summarizes and analyzes the general principles of law and norms of international due process with a particular focus on developments since Cheng s writing The aim is to collect and distill these principles and norms in a single volume as a practical resource for international law jurists advocates and scholars The information contained in this book holds considerable importance given the growth of inter state intercourse resulting in the increased use of general principles over the past 60 years General principles can serve as rules of decision whether in interpreting a treaty or contract determining causation or ascertaining unjust enrichment They also include a core set of procedural requirements that should be followed in any adjudicative system such as the right to impartiality and the prohibition on fraud Although the general principles are by definition basic and even rudimentary they hold vital importance for the rule of law in international relations They are meant not to define a rule of law but rather the rule of law *Speeches Delivered at the Fifth Session of the General Assembly of the United Nations, September-October, 1950* Andrey Yanuaryevich Vyshinsky,1950
