

Remote Office 2007 User Guide

Introduction	This document explains how to use Remote Office 2007 to access Blue Cross applications remotely.
About Remote Office	The Remote Office 2007 solution is used for non-Blue Cross assets. Remote Office 2007 is for employees who need access to the Blue Cross network but DO NOT have a Blue Cross-owned asset. Users can sign in to the Remote Access 2007 web site from any home PC and will be offered select applications.
Technical issues	You're encouraged to contact the Service Desk at (651) 662-5555 regarding any Remote Office 2007 issues. By reporting your issues, you can help the Remote Office 2007 project team identify opportunities for improving the performance of Remote Office 2007. Throughout implementation and migration of Remote Office 2007, the project team will review the Service Desk issues log weekly and implement enhancements as needed.
Access 2003 and MS Office 2003	The Remote Office 2007 application uses Access 2003 and MS Office 2003. If you use any Access databases, they must be upgraded to Access 2003 before you connect to them from home. You must also have a MS Office 2003 license already established through Blue Cross.
