shattering the wall of silence that has long surrounded this topic The Poetics of Genre in the Contemporary Novel Tim Lanzendörfer, 2015-11-19 The Poetics of Genre in the Contemporary Novel investigates the role of genre in the contemporary novel taking its departure from the observation that numerous contemporary novelists make use of popular genre influences in what are still widely considered to be literary novels it sketches the uses the work and the value of genre It suggests the value of a critical look at texts genre use for an analysis of the contemporary moment From this it develops a broader perspective suggesting the value of genre criticism and taking into view traditional genres such as the bildungsroman and the metafictional novel as well as the kinds of amalgamated forms which have recently come to prominence In essays discussing a wide range of authors from Steven Hall to Bret Easton Ellis to Colson Whitehead the contributors to the volume develop their own readings of genre's work and valence in the contemporary novel States: Atomic Weaponry and the Cultural Imagination Fabienne Collignon, 2014-07-31 Rocket States crosses the disciplines of Cold War Studies American Literature American Studies and Cultural Studies The particular attraction of this study lies in the combination of its range close textual and visual analysis of the correlations between land and weaponry set firmly within its political and cultural contexts with its unique analytical approach The book offers a synthesis between history theories of technology theories of space popular culture literary study and military science It illuminates a variety of literary texts from key writers and thinkers such as Pynchon Stephen King Norman Mailer and Tom Wolfe while also invoking figures like Nikola Tesla James Webb Batman and Ronald Reagan Organised topographically according to how missile technology manifests itself differently in particular locations Rocket States s geographical targets are Colorado Kansas Cape Canaveral and New York variously titled Excavation Preservation Evacuation and Transmission It advances through these states roughly chronologically beginning in the late 1940s and early 1950s and coming to an end in the first part of the 21st century Collignon's argument is concerned with identifying the recurring figures and fantasies of the Cold War the dome or parabola as sheltering techno form the fictions of total security adapting to constantly changing targeting strategies gadget love closed freezing worlds As such Rocket States analyses by what processes the Cold War is frequently literalised in its weapons installations and how these facilities in turn shape dreams of containment survival escape and techno supremacy Silence of Fallout Michael Blouin, Morgan Shipley, Jack Taylor, 2014-09-26 This collection asks how we are to address the nuclear question in a post Cold War world Rather than a temporary fad Nuclear Criticism perpetually re surfaces in theoretical circles Given the recent events at the Fukushima Daiichi nuclear plant in Japan the ripple of anti nuclear sentiment the event created as well as the discursive maneuvers that took place in the aftermath we might pause to reflect upon Nuclear Criticism and its place in contemporary scholarship and society at large Scholars who were active in earlier expressions of Nuclear Criticism converse with emergent scholars likewise striving to negotiate the field moving forward This volume revolves around these dialogic moments of agreement and departure refusing the silence of complacency the authors

renew this conversation while taking it in exciting new directions As political paradigms shift and awareness of nuclear issues manifests in alternative forms the collected essays establish groundwork for future generations caught in a perpetual struggle with legacies of the nuclear Unvarnishing Reality Derek C. Maus, 2012-10-15 Unvarnishing Reality draws original insight to the literature politics history and culture of the cold war by closely examining the themes and goals of American and Russian satirical fiction As Derek C Maus illustrates the paranoia of nuclear standoff provided a subversive storytelling mode for authors from both nations including Thomas Pynchon Robert Coover John Barth Walker Percy Don DeLillo Kurt Vonnegut Jr Vasily Aksyonov Yuz Aleshkovsky Alexander Zinoviev Vladimir Voinovich Fazil Iskander and Sasha Sokolov Maus surveys the background of each nation s culture language sociology politics and philosophy to map the foundation on which cold war satire was built By highlighting common themes of utopianism technology and propaganda Maus effectively shows the ultimate motive of satirists on both sides was to question the various forces contributing to the cold war and to expose the absurdity of the continuous tension that pulsed between the United States and the Soviet Union for nearly half a century Although cold war literature has been studied extensively few critics have focused so keenly on comparisons of satirical fictions by Russian and American writers that condemn and subvert the polarizing ideologies inherent in superpower rivalry Such a comparison reveals thematic and structural similarities that transcend specific national and cultural origins In considering these works together Maus locates a thoroughgoing humanistic refutation of the cold war and its operative doctrines as well as a range of proposed alternatives Just as the cold war combatants ultimately reconciled in 1991 with the fall of the Soviet Union Maus seeks to bring these two literary canons together now Their thematic scope transcends cultural differences and as Maus demonstrates these writers saw that there was not only the atomic bomb to fear but also the dangers of complete national militarization and the constant polarizing threat of emergency Thus their cold war critiques still resonate today and invite further comparative studies such as this one Omnivores Lvdia Millet, 2025-04-25 Lydia Millet's debut novel first published in 1996 is an explosive satire that scorches our culture's monstrous men and institutions In a claustrophobic surreal California house teenager Est e Kraft lives with her domineering father whose obsession with insect taxonomy bleeds into sadism As his schemes multiply Est e s bedridden mother entranced by the glow of the shopping channel remains oblivious to the escalating chaos Est e manages to escape her childhood home only to find new horrors awaiting her in marriage and motherhood In a climactic twist her traumas take form in flesh and blood a legacy of the voracious male appetites that have haunted her life With acerbic wit philosophical depth and enthralling lyricism Omnivores cuts to the core of America's hypocrisies and anxieties and introduced Lydia Millet as one of the wildest satirists of our time Ghost Lights Lydia Millet, 2011-09-20 A funny and haunting new novel from one of the most acclaimed novelists of her generation Los Angeles Times Hal is a mild mannered IRS bureaucrat who suspects that his wife is cheating with her younger more virile coworker At a drunken dinner party Hal volunteers to fly to Belize in search of Susan s

Infrastructures of Apocalypse Jessica Hurley,2020-10-13 A new approach to the vast nuclear infrastructure and the apocalypses it produces focusing on Black queer Indigenous and Asian American literatures Since 1945 America has spent more resources on nuclear technology than any other national project Although it requires a massive infrastructure that touches society on myriad levels nuclear technology has typically been discussed in a limited top down fashion that clusters around powerful men In Infrastructures of Apocalypse Jessica Hurley turns this conventional wisdom on its head offering a new approach that focuses on neglected authors and Black queer Indigenous and Asian American perspectives Exchanging the usual white male nuclear canon for authors that include James Baldwin Leslie Marmon Silko and Ruth Ozeki Infrastructures of Apocalypse delivers a fresh literary history of post 1945 America that focuses on apocalypse from below Here Hurley critiques the racialized urban spaces of civil defense and reads nuclear waste as a colonial weapon Uniting these diverse lines of inquiry is Hurley's belief that apocalyptic thinking is not the opposite of engagement but rather a productive way of imagining radically new forms of engagement Infrastructures of Apocalypse offers futurelessness as a place from which we can construct a livable world It fills a blind spot in scholarship on American literature of the nuclear age while also

offering provocative surprising new readings of such well known works as Atlas Shrugged Infinite Jest and Angels in America Infrastructures of Apocalypse is a revelation for readers interested in nuclear issues decolonial literature speculative fiction and American studies
