Excerpt from *Questions in Geikie's Elementary Physical Geography* With the view of aiding Teachers in the use of the *Elementary Lessons in Physical Geography* I have prepared the following series of Questions It is obviously desirable that as frequently as possible the question should be so framed that the answer cannot be given in the mere words of the Lesson but requires that the meaning of the paragraph to which it refers be first clearly

apprehended Much advantage will accrue from copious exercises upon the Maps of which enlarged copies for use as diagrams will be found serviceable Advantage should likewise be taken of every opportunity of illustration from familiar or easily observable phenomena Examples are given in the Lessons to show how this may be done see for instance Lesson VI
