The State of Conservation Joshua Nygren, 2025-01-06 In the twentieth century natural resource conservation emerged as a vital force in US politics laying the groundwork for present day sustainability Merging environmental agricultural and political history Joshua Nygren examines the political economy and ecology of agricultural conservation through the lens of the conservation industrial

complex This evolving public private network which united the US Department of Agriculture Congress local and national organizations and the agricultural industry guided soil and water conservation in rural America for much of the century Contrary to the classic tales of US environmental politics and the rise and fall of the New Deal Order this book emphasizes continuity Nygren demonstrates how the conservation policies programs and partnerships of the 1930s and 1940s persisted through the age of environmentalism and how their defining traits anticipated those typically associated with late twentieth century political culture The conservation industrial complex promoted a development oriented brand of conservation that aided the rise of large scale capital intensive agriculture which continues today It also reshaped the physical and political landscapes of the country leading to impressive conservation victories and spectacular failures by privileging some environments degrading others and intensifying farm depopulation In the name of environmental protection agricultural conservation made rural America less equal *Чунова війна* Кріс Міллер, 2024-08-15 *Psychology in Everyday Life*

David G. Myers, 2014-01-20 David Myers briefest introduction to psychology speaks to all students regardless of their background or level of preparedness with no assumptions made in the vocabulary examples or presentation Students of all kinds are comfortable with Myers manageable chapters which include careful connections to associated visuals comparative tables and research based pedagogy For this edition there is something completely new to a Myers text David Myers personally selected new coauthor Nathan DeWall s enthusiasm for teaching and writing about psychological science makes him uniquely suited to join the worlds bestselling psychology textbook author And with about 30 more pages of coverage this edition has become an even stronger and more complete introduction to the science of psychology for courses of all kinds

Nature Sir Norman Lockyer, 1940 **Alexander I** Marie-Pierre Rey, 2012 Alexander I was a ruler with high aspirations for the people of Russia Cosseted as a young grand duke by Catherine the Great he ascended to the throne in 1801 after the brutal assassination of his father In this magisterial biography Marie Pierre Rey illuminates the complex forces that shaped Alexander s tumultuous reign and sheds brilliant new light on the handsome ruler known to his people as the Sphinx Despite an early and ambitious commitment to sweeping political reforms Alexander saw his liberal aspirations overwhelmed by civil unrest in his own country and by costly confrontations with Napoleon which culminated in the French invasion of Russia and the burning of Moscow in 1812 Eventually Alexander turned back Napoleon s forces and entered Paris a victor two years later but by then he had already grown weary of military glory As the years passed the tsar who defeated Napoleon would become increasingly preoccupied with his own spiritual salvation an obsession that led him to pursue a rapprochement between the Orthodox and Roman churches When in exile Napoleon once remarked of his Russian rival He could go far If I die here he will be my true heir in Europe It was not to be Napoleon died on Saint Helena and Alexander succumbed to typhus four years later at the age of forty eight But in this richly nuanced portrait Rey breathes new life into the tsar who stood at the center of the political chessboard of early nineteenth century Europe a key figure at the heart of diplomacy war

and international intrigue during that region's most tumultuous years
