Volume 1 Shiquan Zhou, Aragona Patty, Shiming Chen, 2017-09-19 The 2016 2nd International Conference on Energy Equipment Science and Engineering ICEESE 2016 will be held on November 12-14, 2016 in Guangzhou, China. ICEESE 2016 is to bring together innovative academics and industrial experts in the field of energy equipment science and engineering to a common forum. The primary goal of the conference is to promote research and developmental activities in energy equipment science and engineering, and another goal is to promote scientific information interchange between researchers, developers, engineers, students, and practitioners working all around the world. The conference will be held every year to make it an ideal platform for people to share views and experiences in energy equipment science and engineering and related areas. *Teaching Climate Change to Children* Rebecca Woodard, Kristine M. Schutz, 2024 Replete with classroom examples, this book demonstrates that young children pre-K/6 are capable of learning about climate change and that climate change and social justice are inextricable from each other and that literacy instruction is well suited to this work. The authors take an emotionally affirming stance and examine the potential of incorporating arts-based methods. *Specifications Grading 2.0*

Linda B. Nilson, Joseph A. Packowski, 2025-09-15 This second edition of the alternative grading classic revisits specs grading with a robust body of research exemplars and strategies to elevate the quality of student work, increase engagement, and buy in, reduce faculty stress, and cultivate students' career competencies. Nilson and Packowski present the unique characteristics of the specs grading schema, all of which simplify faculty decision making, reduce antagonism between the evaluator and the evaluated, and increase student receptivity to meaningful feedback, thus facilitating a mutually beneficial, rigorous learning process. Used consistently over time, specs grading can restore credibility to grades by demonstrating and making transparent to all stakeholders the learning outcomes that students achieve. This book features five new chapters stemming from firsthand accounts of dozens of instructors actively using specs grading and new material in six of the remaining eight chapters. It lays out the surprisingly simple transition process, positioning specs grading as the most viable and easy-to-use system available to faculty.

Handbook of Research on Creating Motivational Online Environments for Students Bilodeau, Julie A., Hughes, Larry W., 2023-08-18 There are many ways to motivate students to achieve their academic and personal goals. Due to the pandemic, more emphasis has been placed on finding alternative approaches to instruct students. Online learning has become the focal point of the educational setting, and new approaches to teaching are necessary. Since the change in delivery from face-to-face to online, teachers have been faced with motivating their students in an environment that is new and foreign to them. Teachers must find new methods to enhance their curriculum to motivate all students in this modality. The *Handbook of Research on Creating Motivational Online Environments for Students* considers how online students learn and how they progress through the learning process. The book also provides teaching techniques and technology that will improve motivational success for students in all modalities. Covering topics such as student behavior, online education, and motivational techniques, this premier reference source is ideal for administrators, researchers,
