

# Autobiographical Sketch

December 18, 2000, marks the day, I was gifted with life and the with the opportunity to leave my mark on society and with this, the desire to become a doctor did nothing but bloom. Growing up, I've always been fascinated with the wonders of life, and furthermore, science. Simple things, such as dressing a cut, or medication and lifestyle choices in order to battle illnesses interested me, to studying cells and different organisms.

I personally have never been a sickly child growing up, however I knew and was around many persons with a variety of ailments, so that is a factor in my drive to take on the profession of a doctor. A lot of deaths around me were due to sickness, and that has always left me wishing I could one day, help persons in those same situations, have a better end result. I've understood that my dad has had various illnesses. He's had a hole in his heart which had him in the hospital for a long while. Afterwards, there was another situation, in which he got extremely sick and was on the brink of death he had a near death experience, and the main cause of that still remains unknown. It's situations like this that has driven me to take on this journey towards indulging in a profession the medical field.

From a time, I can remember, I've always dreamed of becoming a doctor, and not once, through traversing infant, primary and high school, has that ever wavered or changed; it has only grown and evolved. I remember when I was very young, and asked what I wanted to become, and my only reply was "a doctor," and even afterwards when I've been asked that question, the answer, even varied, has remained the same. When I matriculated to high school, in my years from grade 7-9, the work I put in was solely to get a spot in the 10 science and technology core group, and beyond, and I was successful in doing so and doing my courses in that field right up until 6<sup>th</sup> form. In doing this course, my fascination in the sciences flourished, in participation in numerous experimental exercises. The Herbert Morrison Technical High School has gifted me with a vast area of knowledge that has helped me thus far in achieving my goal, and I am interested in your institution as I know I will be able to do greater development and achieve my goal there. The desire to pursue the medical profession has become potent need that I feel designated to fulfill, and that desire increases daily, hence it is something I'm determined to achieve one way or the other.
