**Resisting Rape Culture through Pop Culture** Kelly Wilz, 2019-12-09 Resisting Rape Culture through Pop Culture Sex After MeToo provides audiences with constructive models of affirmative consent tender masculinity and pleasure in popular culture that work to challenge toxic dominant and hegemonic constructions While numerous scholars have illustrated the many ways mediated culture shape social understandings of sexual violence this book analyzes texts that might serve to resist rape culture This project locates how these texts manufacture cinematic or televisual narratives and in turn work to create new realities that encourage cultural and social change Kelly Wilz analyzes the ways in which we as a culture tend to understand sex through visual media and dominant cultural myths while highlighting productive texts which might serve as a possible corrective to the ways in which sex is ritualized by rules that legitimize violence Through the lens of productive criticism Wilz examines how language and dominant ideologies around rape culture and rape myths reinforce systemic violence and how visual texts might work to reimagine how we might disrupt those ideologies and create new ways to engage in conversations around intimacy and violence By centering the voices within the MeToo movement who actively work to de normalize sexual assault and abuse these models provide a useful counter to the deluge of dehumanizing narratives about survivors and sexualized violence Scholars of pop culture women's studies media studies and social justice will find this book particularly useful

*Reading Sounds* Sean Zdenek, 2015-12-23 Imagine a common movie scene a hero confronts a villain Captioning such a moment would at first glance seem as basic as transcribing the dialogue But consider the choices involved How do you convey the sarcasm in a comeback Do you include a henchman's muttering in the background Does the villain emit a scream a grunt or a howl as he goes down And how do you note a gunshot without spoiling the scene These are the choices closed captioners face every day Captioners must decide whether and how to describe background noises accents laughter musical cues and even silences When captioners describe a sound or choose to ignore it they are applying their own subjective interpretations to otherwise

objective noises creating meaning that does not necessarily exist in the soundtrack or the script Reading Sounds looks at closed captioning as a potent source of meaning in rhetorical analysis Through nine engrossing chapters Sean Zdenek demonstrates how the choices captioners make affect the way deaf and hard of hearing viewers experience media He draws on hundreds of real life examples as well as interviews with both professional captioners and regular viewers of closed captioning Zdenek s analysis is an engrossing look at how we make the audible visible one that proves that better standards for closed captioning create a better entertainment experience for all viewers

century compiles some of these interviews to highlight his recurring interests in popular culture and social change Structured around three core concepts culture learning politics and designed as a companion to Participatory Culture in a Networked Era this book broadens the conversation to incorporate diverse thinkers such as David Gauntlett Ethan Zuckerman Sonia Livingstone S Craig Watkins James Paul Gee Antero Garcia Stephen Duncombe Cathy J Cohen Lina Srivastava Jonathan McIntosh and William Uricchio With an introduction from Jenkins and reflections from each interviewee this volume speaks to a sense of crisis as contemporary culture has failed to fully achieve the democratic potentials once anticipated as a consequence of the participatory turn This book is ideal for students and scholars of digital media popular culture education and politics as well as general readers with an interest in the topic *Freudian Fadeout* Arij Ouweneel,2012-08-13 In Western culture the psychoanalysis that has guided popular psychology for almost a century is now on the retreat Better equipped with proven results cognitive and evolutionary psychology has driven psychoanalysis out of the spotlight In cultural and film studies however the debate between cognitive sciences and psychoanalysis remains contentious This volume explores this state of things by examining criticism of 18 films juxtaposing them with cognitive based films to reveal the flaws in the psychoanalytical concepts It pays particular attention to simulation theory the concept that narratives learned from films could work in human minds as simulations for solutions to particular problems By introducing the idea of narrative stimulation to film studies this work argues for a different method of film critique encouraging further research into this nascent field *The Routledge Introduction to American Life Writing* Amy Monticello,Jason Tucker,2023-07-31 The stories of lived experience offer powerful representations of a nation s complex and often fractured identity Personal narratives have taken many forms in American literature From the letters and journals of the famous and the lesser known to the memoirs of former slaves to hit true crime podcasts to lyric essays to the curated archives we keep on social media life writing has been a tool of both the influential and the disenfranchised to spark cultural and political evolution to help define the larger identity of the nation and to claim a sense of belonging within it Taken together individual stories of real American lives weave a tapestry of history humanity and art while raising questions about the veracity of memory and the slippery nature of truth This volume surveys the forms of life writing that have contributed to the richness of American literature and shaped American discourse It examines life writing as a rhetorical tool for social change and explores how technological advancement has allowed ordinary Americans to chronicle and share their lives with others *The Flight of Icarus* James S. Amelang,1998-08-01 Exploring autobiographical texts written by European urban craftsmen from the fifteenth to the eighteenth centuries this wide ranging book studies memoirs diaries family chronicles travel narratives and other forms of personal writings from Spain France Italy Germany and England In the process it considers the motivations of the authors the changing forms and emphases of artisan narratives and more generally the significance of written self expression in early modern popular culture By analyzing reading and writing as practices laden

with social meaning this work aims to illuminate the changing role of the lower classes and other groups considered marginal in the history of literature and literacy It uncovers an Icarian logic by which writing about the self and one's immediate and private world developed as a complex response to widely shared expectations regarding the cultural and political subordination of craftsmen and others relegated to the margins of public life and discourse The book also contributes to the contemporary interdisciplinary debate concerning the nature and evolution of autobiographical writing It draws upon those currents within literary studies such as feminist criticism which favor a more flexible approach to the study of first person narrative than that adopted by traditional literary critics and historians of ideas It also argues for revising the standard history of autobiography eschewing the teleological presentation of a small handful of classic texts in favor of a more nuanced trajectory in which a wide range of social actors helped shape the emerging patterns of modern self understanding and expression
