Derriman geologist Tom Williamson has now reconstructed a scenario that solves the mystery. It is a complex tale that involves the marriage of Inigo's chief Banqueting House mason Nicholas Stone to the daughter of the City Mason of booming Amsterdam; a nasty incident at the stone loading pier at Portland; and Inigo Jones's struggles to pay stone workers from King James's bankrupt Treasury. The new findings presented in *Inigo's Stones* also see Inigo Jones studying Roman stones and marbles in Italy with Lord and Lady Arundel initiating the first geological study of Stonehenge; searching for Portland stones big enough to replicate the Caryatian marble monoliths of the Roman temple of Antoninus and Faustina in London; and procuring Irish marbles to reflect imperial glory on his friend King Charles I. Inigo emerges not just as a Court propagandist and Vitruvian architect but also as a resourceful businessman doing his best to cope at a time when the government was even shorter of cash than it is today. Reflecting on the questions raised by Inigo's work for the Stuart kings, the author Tom Williamson extends the story to cover the whole field of how rulers have used stones and marbles to project imperial power. Focusing on the stones of three once mighty empires—the Roman, the Mughal, and the British—the book ends with a surprising twist.

Bright Particular Stars David McKie, 2011-05-01 In *Bright Particular Stars*, David McKie examines the impact of 26 remarkable British eccentrics on 26 unremarkable British locations. From Broadway in the Cotswolds, where the Victorian bibliomaniac Sir Thomas Phillipps nurtured dreams of possessing every book in the world, to Kilwinning in Scotland, where in 1839 the Earl of Eglinton mounted a tournament that was Renaissance in its extravagance and disastrous in its execution, McKie leads us to places transformed, inspired, and sometimes scandalized by the obsessional endeavors of visionary mavericks. Some of McKie's eccentrics, such as Mary Macarthur, who helped the women chainmakers of Cradley Heath win the right to a fair wage in 1910, were good to the point of saintliness; others, including the composer Peter Heseltine, who in the 1920s set net curtains twitching by his hard drinking and naked motorbike riding, rather less so. But together, their fascinating stories illuminate some of the most secret and most extraordinary byways of British history. Here, quiet unassuming streetscapes become sites of eccentric and uproarious sites of action. The triumphs and failures of the visionaries who thus transformed them recaptured here in vivid and beguiling fashion have each in their own way helped shape the island's rich and checkered history.
