Revelation Richard Swinburne, 2007-07-26 The great religions often claim that their books or creeds contain truths revealed by God How could we know that they do In the second edition of Revelation renowned philosopher of religion Richard Swinburne addresses this central question But since the books of great religions often contain much poetry and parable Swinburne begins by investigating how eternal truth can be conveyed in unfamiliar genres by analogy and metaphor within false presuppositions about science and history In the final part of the book Swinburne then applies the results of Parts I and II to assessing the evidence that the teaching of the Christian Church constitutes a revelation from God In the course of his philosophical exploration Swinburne considers how the church which Jesus founded is to be identified today and presents a sustained discussion of which passages in the Bible should be understood literally and which should be understood metaphorically This is a fuller and entirely rewritten second edition of Revelation the most notable new feature of which is a long chapter examining whether traditional Christian claims about personal morality divorce homosexuality abortion etc can be regarded as revealed truths A formal appendix shows how the structure of evidence supporting the Christian revelation can be articulated in terms of the probability calculus and shows that Plantinga's well known argument from dwindling probabilities against probabilistic arguments of this kind is not cogent

The Book of Revelation, 2019-11-21 Medieval exegesis of the Apocalypse from Richard of St Victor through Nicolas of Lyra In this volume Franciscan scholar David Burr concentrates on the mendicant contribution to the book of Revelation Clashing interpretive strategies developed mirroring authority structures in the context of the new institutional framework of the university the new methodology of scholasticism and expanding papal authority By the early fourteenth century a clear victory of one strategy and one structure emerges in the work of Pierre Auriol and Nicholas of Lyra and conversely the defeat of another in the posthumous condemnations of Petrus Iohannis Olivi and to some extent Joachim of Fiore This is the fifth volume of The Bible in Medieval Tradition BMT a series designed to reconnect the church with part of its rich history of biblical interpretation

John Locke: The Philosopher as Christian Virtuoso Victor Nuovo, 2017-08-25 Early modern Europe was the birthplace of the modern secular outlook During the seventeenth century nature and human society came to be regarded in purely naturalistic empirical ways and religion was made an object of critical historical study John Locke was a central figure in all these events This study of his philosophical thought shows that these changes did not happen smoothly or without many conflicts of belief Locke in the role of Christian Virtuoso endeavoured to resolve them He was an experimental natural philosopher a proponent of the so called new philosophy a variety of atomism that emerged in early modern Europe But he was also a practising Christian and he professed confidence that the two vocations were not only compatible but mutually sustaining He aspired without compromising his empirical stance to unite the two vocations in a single philosophical endeavour with the aim of producing a system of Christian philosophy

imagery and rich prophetic language the book of Revelation confronts and confuses readers perhaps more than any other Biblical book Brandon Smith brings clarity by reading Revelation primarily as John's faithful vision of the triune God and in doing so helps us better worship the one who is Father Son and Holy Spirit **The Revelation of God** Peter
