operation from floc filtration to adsorptive filtration To achieve this two options can be considered iron II adsorption under anoxic conditions followed by oxidation with oxygen rich water and adsorption of iron II in the presence of oxygen and simultaneous oxidation The first option might be attractive specifically when two filtration steps are available [National Library of Medicine Current Catalog](#) National Library of Medicine (U.S.),1972 First multi year cumulation covers six years 1965 70 [Using the Engineering Literature, Second Edition](#) Bonnie A.
