

### My Career Goals Essay

I am currently working as a Software developer specialized in Enterprise Application Integration for Intellytix, Inc. and this work is in my desired career. I am graduated with a Master of Science degree in Applied Computer Science from Northwest Missouri State University in Dec 2014. I have been working in the field of IT from past three years starting my career in the United States with Cerebral Technologies, Inc., a global services provider for some reputed clients like Bank of America, T-Mobile, Walmart, MoneyGram etc. I worked for Cerebral for about 18 months and later I got an offer from Intellytix, Inc., a reputed company based out of Atlanta which is again a global services provider for reputed companies like Western Union Digital, Equinix, Riverbed Technology, etc. My current assignment is with Riverbed Technology, Inc. an American Information Technology company which has both software and hardware products that are focused on network performance monitoring, application performance management and products that deal with Wi-Fi and WAN optimization.

I work in the Information Technology department where the team mainly focuses on the Order management and Business to Business transactions and integrations. I work in the Enterprise Application Integration team where we use the products of TIBCO Software to build our interfaces and application services, work closely with other enterprise teams such as Salesforce, Oracle, API services & CPQ teams and we also work with external partners or vendors for the smooth flow of transactional documents exchange. The things I like most about my current job is that it's very challenging and I have a good scope of learning new things every time. The team I work with is very friendly and supportive and they teach me new things and correct me when I make a mistake without having a second thought. The work life of this company is very good and it's flexible enough which helps us to balance both our personal and work life. We have a game room to energize us when we are like bored or something. We have brainstorming sessions once a month where we can express our ideas or thoughts that might be helpful in improving the performance of the applications we use etc.

We have Yoga sessions at work twice a week which provide the employees with physical and mental health benefits which in turn improves the productivity at work. There are obstacles stood in the way while initially looking for an opportunity to work in the Information Technology field. Applying for hundreds of companies, taking interviews and trying to maintain the immigration status in the initial stages is kind of hard and stressful. With having a passion and love towards the Computer systems and the evolving new technologies I would like to continue my career in the Information Technology and in the next 5 years I would like to see me in the position of a Technical Lead/ Architect for the Enterprise Application Integration in a

*slope deflection method wikipedia* - Mar 12 2023

web the slope deflection method is a structural analysis method for beams and frames introduced in 1914 by george a maney the slope deflection method was widely used for more than a decade until the moment distribution method was developed

**pdf displacement method of analysis karthik s academia edu** - Feb 28 2022

web karthik s the displacements method works by satisfying the equilibrium equations for the structure to do this the unknown displacements are written in terms of the loads by using the load displacement relations then these equations are solved for the displacements once the displacements are obtained the unknown loads are determined from

**lesson 11 displacement method slope deflection equation 1** - Aug 05 2022

web displacement method slope deflection equation 1 in the displacement method unlike the force methods displacements rotations at joints are taken as unknowns a set of algebraic equations in terms of unknown displacements rotations is obtained by substituting the force displacement relations into the equilibrium equations

*analysis of statically indeterminate structures by the displacement method* - Apr 13 2023

web displacement method 1 slope deflection method in this method it is assumed that all deformations are due to bending only deformations due to axial forces are neglected 2 direct stiffness method deformations due to axial forces are not neglected the slope deflection method was used for many years before the computer era after the revolution

*chapter 5 indeterminate structures slope deflection method* - Jan 10 2023

web the basic idea of the slope deflection method is to write the equilibrium equations for each node in terms of the deflections and rotations solve for the generalized displacements using moment displacement relations moments are then known the structure is thus reduced to a determinate structure fundamental slope deflection equations

**introduction to structural analysis displacement and force methods** - Feb 11 2023

web bridging the gap between what is traditionally taught in textbooks and what is actually practiced in engineering firms introduction to structural analysis displacement and force methods clearly explains the two fundamental methods of structural analysis the displacement method and the force method

**lesson 13 displacement method slope deflection equation 3** - Apr 01 2022
