Sciences Agents Doubles Essais Documents:

Sciences, agents doubles Vincent Jullien, 2002-03-13 Agent double Tel est celui qui l'on croit pouvoir faire confiance alors qu'il oeuvre contre nous C'est ainsi que l'on perçoit les sciences aujourd'hui elles résistent dans bien des domaines mais en même temps elles suscitent rejet et soupçon De la dénonciation de la sélection par les mathématiques l'écologie aux questions soulevées par les avancées de la biologie la confiance grandit Agent double C'est aussi celui qui est performant dans des registres différents Ce deuxième sens convient bien aux sciences non seulement elles cherchent à comprendre la nature et la raison mais elles se développent en étroite affinité avec notre culture et notre sensibilité Pourtant cela nous l'avons oublié L'opposition entre les sciences et les lettres le géomètre et le poète la raison et les arts a pris force d'évidence Si l'on n'avoue pas volontiers ne rien entendre la littérature ou la peinture il n'est guère choquant de proclamer son total désintéressement pour les sciences Retraçant la genèse de cette opposition Vincent Jullien donne avec clarté des exemples à l'appui que rien ne la justifie Pis elle est dangereuse Si l'on veut contester les abus de pouvoir de la science il faut commencer dans l'enseignement en particulier par l'intégrer dans une culture commune
