Kibsey,Rohan Crichton,2018-01-22 This edited collection brings together leading theoretical and applied research with the intent to design a sustainable global financial future The contributors argue that our world cannot move toward sustainability

address climate change reverse environmental degradation and improve human well being without aligning the financial system with sustainable development goals like those outlined by the United Nations Such a system would a be environmentally and socially responsible b align with planetary boundaries c manage natural resources sustainably d avoid doing more harm than good and e be resilient and adaptable to changing conditions The overarching theme in this collection of chapters is a response to the worldwide supranational sustainable finance discussions about how we can transition to a new socio ecological system where finance human well being and planetary health are recognized as being highly intertwined

The Performance of Asian Higher Education Gwilym Croucher, Chuanyi Wang, Jiale Yang, 2022-07-28 With contributions from several Asia Pacific countries this book compares performance and productivity in higher education from the perspective of institutional change Using multiple methods and datasets and including case studies from Australia Cambodia China Malaysia India and Japan the authors focus on shedding light on the efficacy of institutional policies and reforms The worldwide Gross Enrolment Ratio GER in higher education neared 40 per cent in 2020 due to the dramatic increase in enrolments in many developing economies especially in Asia This significant increase in the number of students in higher education brings great benefits but requires major ongoing investment by governments around the world This growth has followed waves of internationalization and marketization and universities are undergoing substantial change in their organization and character The goal of many institutional policies and reforms has been better performance and higher productivity Yet little is known about whether they have achieved this aim Students government officials and university leaders all have the right to ask whether the outcomes of higher education justify the costs of running the system Although increasing attention has been paid to higher education institutions management and operation the study of higher education performance and productivity is still in its relative infancy compared to other enterprises Written for students and scholars interested in higher education management and productivity this book will also appeal to government officials and university leaders keen to know more about institutional reform and how to achieve better performance

House of Lords - Economic Affairs Committee: The Draft

Finance Bill 2014 - HL 146 Great Britain: Parliament: House of Lords: Select Committee on Economic Affairs, 2014-03-11

The Government proposes introducing legislative tests to determine if an Limited Liability Partnership member is an employee or truly a partner Failing these tests would make the member liable for income tax and National Insurance Contributions NIC as an employee and the LLP would pay employer NICs Nearly all the evidence received by the Committee was that the legislative tests failed to achieve the policy objective Many suggested that existing case law could be used instead A delay in implementation until April 2015 would allow for further consultation to target the legislation better and for businesses to adapt to the changes The Committee also raised concerns that the proposed changes to tax arrangements for LLPs would apply only to UK registered LLPs and not those conducting business here but formed outside the UK The

Committee is content in principle with proposed measures to counter shifting of profit to corporate members of partnerships to minimise tax liability and highlights the extent of this practice in the Alternative Investment Fund Management AIFM Sector But the Committee wants to see the legislation drafted more precisely And it is concerned that the Government's revised estimates of the tax yield from these measures and particularly the additional 1.92bn in 2015-2019 from the AIFM sector show that the Government's original estimates of tax yield were very wide of the mark

Banking's Final Exam Morris Goldstein, 2017-05-30 Spurred by the success of the first stress test of US banks toward the end of the global economic crisis in 2009 stress testing of large financial institutions has become the cornerstone of banking supervision worldwide The aim of the tests is to determine which banks are adequately capitalized under severe economic shocks and to order corrective measures for those that are vulnerable In Banking's Final Exam one of the world's leading experts on banking regulation concludes that the tests administered on both sides of the Atlantic suffer from fundamental weaknesses leading to a false sense of reassurance about the safety and soundness of the banking system Some weaknesses can be corrected within the existing bank capital regime but others will require bold reforms including higher minimum capital requirements for the largest and most systemically important banks The banking industry is likely to resist these reforms but this book explains why their objections do not hold water

The Economics of Airport Operations James Peoples, John Bitzan, 2017-10-03 This volume examines the role that airports play in economic development and land values the regulation and economic efficiency of airports airport pricing and competition and the role played by airports in influencing airline operations and networks

Intellectual Property Rights in Pharmaceutical Test Data Adam Buick, 2023-05-12 This book considers the intellectual property protection of clinical test data that has been submitted to governments in particular through test data exclusivity rights It focuses on how these intellectual property rights first emerged in the early 1980s how they have globalised over the past four decades and what impact they have had upon access to medicine This book makes a number of

significant and original contributions to the literature around the protection of submitted test data First the book draws upon the theory of regulatory globalisation to provide an explanation of how intellectual property rights in submitted pharmaceutical test data have become nearly ubiquitous in the legal systems of most major economies Second through a comprehensive analysis and synthesis of provisions on the protection of submitted test data in free trade agreements as well as a comparison of a range of national approaches to the protection of submitted test data it reveals the broader global regulatory pattern that has given rise to these intellectual property rights Third by analysing data on drug approvals in the US it provides an empirical insight into the impact of test data exclusivity in national pharmaceutical markets Fourth the book covers a number of developments regarding test data exclusivity that have occurred as a result of responses to the COVID 19 pandemic both at the national level as well as at the World Trade Organisation WTO This book will appeal to academics researching the intersection of intellectual property and the life sciences civil society activists working to promote access to medicines and students particularly those at the post graduate level studying the relationship between intellectual property and medicine Research Handbook on the Economics of Intellectual Property Law Ben Depoorter, Peter Menell, David Schwartz, 2019 Both law and economics and intellectual property law have expanded dramatically in tandem over recent decades This field defining two volume Handbook featuring the leading legal empirical and law and economics scholars studying intellectual property rights provides wide ranging and in depth analysis both of the economic theory underpinning intellectual property law and the use of analytical methods to study it *MANAGERIAL ECONOMICS* Dr. Saroj Kumar, Vipin Singh, 2024-11-01 Buy E Book of MANAGERIAL ECONOMICS For MBA 1st Semester of AKTU Dr A P J Abdul Kalam Technical University UP
