Special Features of

the UN Model Convention Anna Binder, Viktoria Wöhrer, 2019-10-01 Detailed research on the UN Model Convention s

unique features The UN Model Convention has a significant influence on international tax treaty practice and is especially

used by emerging and developing countries as a starting point for treaty negotiations Driven by the aim to achieve

consistency in the international tax treaty practice the structure and content is to a large extent similar in the UN Model and

the OECD Model However whereas the OECD has historically focused its efforts on issues mainly relevant for developed

countries the UN Tax Committee has continuously attempted to specifically take into account tax treaty policies for

developing countries when drafting and amending the UN Model Convention Compared to the OECD Model Convention the

UN Model Convention aims at giving more weight to the source principle Popular examples are the PE definition in the UN

Model which provides for a lower threshold than Article 5 of the OECD Model or Article 12A on Fees for Technical Services

which has been introduced with the latest amendment of the UN Model Convention 2017 and allows for a withholding tax to

be levied on payments to non residents when the payer of the fee is a resident of that contracting State irrespective of where

the services are provided Interestingly in the discussions of the tax challenges arising from the digitalization of the economy

the OECD and the G20 are also exploring options to allocate more taxing rights to the jurisdiction of the customer and or

user i e the market jurisdictions As this has traditionally been the focus of the UN Model Convention its unique features and developing countries practices could be taken into account when exploring new nexus rules that are not constrained by the physical presence requirement This book contains the master s theses of the full time LL M program 2018 2019 for which Special Features of the UN Model Convention has been chosen as the general topic With this book the authors and editors do not aim at discussing each article of the UN Model Convention but rather focus on the unique features of the UN Model Convention which are explored in detail This is supplemented with an evaluation of the function and relevance of the UN Tax Committee in the international tax policy discussion and with an analysis of the influences of the OECD s BEPS project on the UN Model *Guidebook on scientific writing with a focus on the water sector* Inyang, Hilary I., UNESCO, UNESCO Office Nairobi and Regional Bureau for Science in Africa, 2022-03-23

Survey of access and benefit-sharing country measures accommodating the distinctive features of genetic resources for food and agriculture and associated traditional knowledge Food and Agriculture Organization of the United Nations, 2021-09-01 The Commission on Genetic Resources for Food and Agriculture at its Seventeenth Regular Session requested its Secretary to prepare for review by the intergovernmental technical working groups on animal aquatic forest and plant genetic resources to produce an up to date survey of existing legislative administrative and policy approaches including best practices for ABS for the different subsectors of GRFA and traditional knowledge associated with GRFA held by indigenous peoples and local communities with the aim of identifying typical approaches and lessons learned from their implementation as well as challenges and possible solutions The current survey comprises a baseline desktop review of legislation policy and literature It provides a review of how countries address the distinctive features of GRFA and TKGRFA based on the letter of their ABS legislative administrative and policy measures rather than on how these measures have been implemented in practice It therefore does not provide an analysis of the state of implementation the challenges involved and possible solutions to these challenges As such it aims to provide a basis for future empirical research on how ABS measures work in practice for GRFA subsectors A specific objective is to provide a typology of legislative administrative and policy measures applying to ABS for GRFA and TKGRFA
