Cutting School Noliwe Rooks, 2020-03-03 2018 Zora Neale Hurston Richard Wright Legacy Award Nonfiction Finalist A timely indictment of the corporate takeover of education and the privatization and profitability of separate and unequal schools published at a critical time in the dismantling of public education in America An astounding look at America's segregated school system weaving together historical dynamics of

race class and growing inequality into one concise and commanding story Cutting School puts our schools at the center of the fight for a new commons Naomi Klein author of No Is Not Enough and This Changes Everything Public schools are among America s greatest achievements in modern history yet from the earliest days of tax supported education today a sector with an estimated budget of over half a billion dollars there have been intractable tensions tied to race and poverty Now in an era characterized by levels of school segregation the country has not seen since the mid twentieth century cultural critic and American studies professor Noliwe Rooks provides a trenchant analysis of our separate and unequal schools and argues that profiting from our nation s failure to provide a high quality education to all children has become a very big business Cutting School deftly traces the financing of segregated education in America from reconstruction through Brown v Board of Education up to the current controversies around school choice teacher quality the school to prison pipeline and more to elucidate the course we are on today the wholesale privatization of our schools Rooks s incisive critique breaks down the fraught landscape of segrenomics showing how experimental solutions to the so called achievement gaps including charters vouchers and cyber schools rely on profit from and ultimately exacerbate disturbingly high levels of racial and economic segregation under the guise of providing equal opportunity Rooks chronicles the making and unmaking of public education and the disastrous impact of funneling public dollars to private for profit and nonprofit operations As the infrastructure crumbles a number of major U S cities are poised to permanently dismantle their public school systems the very foundation of our multicultural democracy Yet Rooks finds hope and promise in the inspired individuals and powerful movements fighting to save urban schools A comprehensive compelling account of what s truly at stake in the relentless push to deregulate and privatize Cutting School is a cri de coeur for all of us to resist educational apartheid in America
