Critical Race Studies in Physical Education Tara B. Blackshear,Brian Culp,2022-02-14 Racism is a sickness that permeates every aspect of Black life But if the events of the past few years have taught us anything it is that America has a hard time talking about issues that create disparity and inequality for Black people This inequality extends not just into education but also into physical education Blacks are stereotyped as physically superior and intellectually deficient They are marginalized in PE just as they are in other aspects of their lives Through a series of case studies Critical Race Studies in Physical Education offers deep insights into the issues that Black students face The text geared to undergraduate and graduate PETE students and in service teachers does the following Provides culturally aware teaching strategies that affirm the worth of Black students Amplifies the crucial issues that negatively affect Black students Addresses the litany of intentional and covert racist practices directed toward Black youth thus broadening the book s value beyond the sharing of teaching strategies The end goal is to elevate the perspectives of Black youths and teachers and to normalize positive experiences for Black students in physical education To do so Critical Race Studies in Physical Education provides the following Eight case studies of situations that expose racism disparities and other issues affecting Black students well being self worth and healthy experiences in PE Critical race study discourse that stimulates discussion of relevant issues and enhances learning Reflective activities resources lesson considerations and definitions to help students and in service teachers use what they have learned through the case studies and discussions Each case study includes discussion and reflection prompts that are meant to lead the way to effective strategies and immediate implementation opportunities Here is a partial list of the case studies A white elementary student uses the N word toward a Black teacher A Black female student endures gendered racism and racial disparities through her swimming experiences A white teacher is oblivious to why her Black students don t want to be outside in the sunshine or get their hair moist A new PE teacher harbors toxic masculinity white supremacy and stereotypes of Black sexuality White student teachers grapple with accepting job offers in an urban area Black students need teachers to engage in anti racist teaching practices that empower Black youth and aid in their

success For this to happen teachers need to affirm students and make them feel safe cared for listened to and recognized as worthy Critical Race Studies in Physical Education will help teachers of all races adopt the teaching practices that create this supportive empathetic and nurturing environment and in doing so validate Black students self worth and swing the pendulum back toward a more equitable education in PE Human Kinetics is proud to publish this book in association with SHAPE America the national organization that defines excellence for school based health and physical education professionals across the United States Cognitive Development for Academic Achievement James P. Byrnes, 2021-09-01 This integrative text spotlights what educators need to know about children s cognitive development across grade levels PreK 12 and content areas The book provides a concise introduction to developmental neuroscience and theories of learning Chapters on general cognitive abilities probe such crucial questions as what children are capable of remembering at different ages what explains differences in effort and persistence and how intelligence and aptitudes relate to learning Domain specific chapters focus on the development of key academic skills in reading writing math science and history Multiple influences on academic achievement and motivation are explored including school family cultural and socioeconomic factors Each chapter concludes with clear implications for curriculum and instruction **Current Index to Journals in Education, Semi-Annual Cumulation, July-December, 1976** ,1976-10
