the automobile oil insurance media and concrete industries that promote and entrench car dependence has pursued profit at the expense of the common good David Obst explores how Big Car gained almost immeasurable influence over our lives weighing the benefits and the costs of reliance on private automobiles He details how industry covered up the harms of lead additives fought against seatbelts and continues to fund climate change denialism Obst considers the future of mobility surveying how cities from Taipei to Tempe Copenhagen to Chicago are experimenting with forms of transportation that offer alternatives to the dominance of cars Provocative and comprehensive Saving Ourselves from Big Car is a powerful wake up call for us to change how we use cars before it s too late
